VOL. XXV BELLEFONTE, PA., THURSDAY MORNING. NOVEMBER 8, 1894. NO 45

Great Day For Hastings.

WILL BE THE NEXT GOVERNOR OF PENNSYLVANIA.

Has About 200,000 Plurality.

Philadelphia Gives Him in the Neighborhood of 86,000 and Allegheny About 40,000.

Philadelphia, Nov. 6.—Incomplete returns received up to 12.30 a. m. show a net Republican gain over 1892 of 80,921. The same ratio of gain in the districts yet to hear from would indicate a plurality in the state for Hastings for governor of at least 200,000. Philadelphia gives Hastings from 65,000 to 75,000 plurality.

Philadelphia, Nov. 6.—Four divisions of the Sixteenth ward give Halterman, 411; McCullen, 163. Same divisions in 1892, gave McAleer, 474; Kerr, 168.

The Democratic dissensions in the Third congressional district, now represented by William McAleer, Democrat, and for so many years represented by the late Samuel J. Randall, were shown to-day to have been even greater than the most hopeful Republican had anticipated. McCullen,

the Democratic candidate, is defeated by Halterman, Republican, by probably 5,000 majority. Later returns may show Halterman's majority to exceed even that figure.

ILLINOIS.

Chicago, Nov. 6.—Republican state central committee claims Illinois is Republican by 70,000 plurality. At least sixteen congressmen and both branches of the general assembly are Republican, which assures the return of a Republican United States senator.

CONNECTICUT.

New Haven, Conn., Nov. 6.—Returns from thirty towns out of 168, in the state, no cities, show a Republican gain of 1,764 over the vote of 1892, out of a total vote of 11,687. The same ratio through the state will elect the Republican ticket.

MARYLAND.

Baltimore, Nov. 6—Maryland joined the Republican procession to-day and will, for the first time in the history of the state, send more Republicans than Democrats to represent her in the halls of congress. Four of the six congressmen elected to-day are Republicans, a net gain of four. Unprecedented gains were also made by the Republicans in other districts and the first branch of the Baltimore city council will, for the first time, be controlled by the Republicans.

NEW JERSEY.

Trenton, N. J. Nov. 6.—The chairman of the Democratic state committee concedes the election of a Republican legislature in New Jersey, insuring the election of a Republican senator to succeed McPherson.

IOWA.

Des Moines, Iowa, Nov. 6.—A small vote was polled in Iowa and enough returns are at hand to indicate the election of the entire Republican state ticket by 50,000 with the exception of Judge Granger and B. I. Sallinger for the supreme court, whose opponents were endorsed by the Populists. The Republicans elect ten congressmen and the result in the Second district is in doubt with the chances in favor of the Democrats by a small plurality,

OHIO.

Columbus, O., Nov. 6—At 9 o'clock Chairman Allen W. Thurman, said to a United Press representative: "The whole country seems to have gone to pot. There is but one bright spot apparent South Carolina still stands Democratic. We have heard from only 155 precincts in Ohio, but that is enough. If it keeps up, the Republicans will carry the state by 150,000. It means that there will not be a Democratic congressman elected in Ohio, I think Outhwaite is defeated by at least 2,500."

MASSACHUSETTS.

Boston, Nov. 6.—Returns from one quarter of the city show a net loss of 1,800 for Russell, democrat.

Ten towns give Greenhalge, republican, 2,166; Russell, democrat, 556, a net loss 242 votes.

Springfield, Nov. 6.—Returns from the First congressional district show that Wright, republican, has defeated Green, democrat, by 1,800 to 2,000 majority. Returns clearly indicate that Gilette, republican, has defeated Hall, democrat, by 2,000 in the Second congressional district.

VIRGINIA.

Richmond, Nov. 6.—Returns from various parts of the state show a large falling off in the democratic vote.

Further returns indicate heavy democratic losses at nearly every point. The returns are slow, and, while the democrats appear to have lost heavily, the returns are not sufficiently full to indicate that they have lost any of the districts.

DELAWARE.

Wilmington, Nov. 6.—At 9.15 o'clock it looks as if the republicans will carry New Castle and Sussex counties and lose Kent county. This would give the republicans the governor, congressman and United States senator.

The Morning News, Republican, predicts that Delaware has gone republican by 200 to 400.

WISCONSIN.

Milwaukee, Nov. 6.—Seven towns in the state show the following: Peck, democrat, 338; Upham, republican, 912. In 1872 they gave Peck 543 and Spencer 812.

The state has gone republican by 20,000 to 25,000 majority.

NORTH CAROLINA.

Raleigh, Nov. 6.—The democratic state and judicial ticket in North Carolina is no doubt elected by reduced majorities. Indications are that the democrats have carried seven out of the nine congressional districts, with even chances in the other two.

LOUISIANA.

Washington. Nov. 6.—The Republican Congressional committee has received a telegram from the secretray of the state republican committee at New Orleans, saying the republicans have carried the Second and Third districts of Louisiana and will [illegible] also.

MISSOURI.

St. Louis, Nov. 6.—Sterrett, republican, for congress in the Twelfth district, probably defeats Cobb, democrat. In the Eleventh, Espenschied, democrat, for congress, leads Joy, republican. The city democratic ticket is elected by a narrow majority.

KENTUCKY.

Washington, Nov. 6.—W. H. Bohler telegraphs from Louisville, Ky., to a friend at republican headquarters that Evans, republican, is elected in the Fifth district by 3,000 and that The Courier Journal concedes it.

SOUTH CAROLINA.

Columbia, Nov. 6.—Figures thus far indicate the election of Evans (Tillmanite for governor) by 30,000 votes.

ARKANSAS.

Little Rock, Nov. 6.—The democrats elect all six congrestmen. John S. Little, who succeeds Clifton R. Breckinridge, is the only change from the present delegation.

COLORADO.

Denver, Nov. 6.—Chairman Howbert claims the entire state republican ticket is elected by 18,000 majority.

FLORIDA.

A New York Times bulletin says Florida has elected a solid democratic delegation to congress.

MICHIGAN.

Detroit, Fov. 6.—The republicans have all the congressmen, twelve in number.

If you have not yet procured one of those pretty watch case openers, get one from your jeweler, or send to Philadelphia. They are furnished free by the Keystone Watch Company. Besides making a handsome charm for your chain they save your finger nails and knife-blades. The Keystone Company is the largest of its kind in the world, ann makes all kinds of cases to the low price nickle to the most expensive solid gold. Its great speciality is the Jas. Boss filled case. Jas. Boss iuvented and made the first filled case in 1859, and many of the cases then made and worn are still intact. Later the Boss patents passed into the hands of the Keystone Watch Case Company, which has the sole right to make these cases. Boss cases are knowe to all jewelers as the standard, after which all other filled cases are patterned. All Keystone cases, Boss cases included, have the far-famed Non-pull-out bow or ring. It is the only bow that is securely fastened to the case, and can only be had on cases made by this company. It prevents loss of the watch by theft and injury by dropping. These cases are handled by all jewelers, as the Company itself does not retail.

ALL REPUBLICAN.

CENTRE COUNTY ROLLS UP A BIG MAJORITY FOR

The Entire Republican Ticket.

Hastings Will Have One Thousand Majority—Love Elected Judge, and the Entire County Goes Republican.

"And the next day it snowed;" also the same day, only that the snow on the same day was in the shape of Republican ballots, and the downpour was unprecedented, unheard of, even not dreamed of, and never before known in the history of Centre county. From democratic majorities one year ago ranging from seven to [illegible] day gave Hastings almost one thousand majority. And, in addition, gave good majorities for the entire Republican ticket. Love will have a good majority for judge in this county, and in Huntingdon his majority will be over fifteen hundred making his total about two thousand in the district.

The election in Bellefonte passed off devoid of any incidents of interest aside from the unusual amount of work done by politicians of both parties. And this work, judging from the returns, was done mostly in the interest of the Republican candidates. The day must have been spent in about the same way, judging from the returns from every precinct.

It is impossible to give the complete vote of the county to-day, so we leave it until to-morrow. From the returns now computed enough is known to warrant a statement that every republican in the county will have majorities ranging up to 500. In Bellefonte borough the vote for the principal candidates was as follows:

	N.W.	S.W.	W.W.	TOTAL
For Governor,—				
Hastings,	303	197	106	606
Singerly,	88	156	54	298
Hastings' majority,				308
For Congress,—				
Arnold,	236	158	95	490
Williams,	147	183	63	393
Arnold's majority,				97
For Judge,—				
Love,	248	144	95	487
Bower,	133	201	64	309
Love's majority,				88
For Legislature,				
Womelsdorf,	243	160	87	490
Curtin,	264	169	91	524
Schofield	124	169	71	364
Foster,	136	198	63	397
Womelsdorf over Schofield,				136
Curtin over Foster,				127

How Hastings Received the News.

The home of General Hastings on Tuesday night was crowded all the time with intimate friends from Bellefonte and Centre county who were eager and anxious to share with the General in the joys of receiving the good news from all over the State.

Arrangements had been made to receive the news direct from Philadelphia by private wire and an instrument operated by E. B. Rankin in the north room of the General's residence ticked off all the news as it came in, and the long distance telephone was kept busy most all the time, transmitting congratulations and news from Philadelphia.

The General took his wonderful victory as modestly as it was possible for a man just given the largest majority ever given any candidate in the State to do, of course, he could not help but evince a certain degree of pleasure over the result. But his interest was not centered alone in Pennsylvania, but in the returns from all over the United States, and especially in New York. And through it all Mr. Hastings was the same genial, cordial gentleman, with a smile and a hand shake for everyone.

During the evening hundreds of congratulatory telegrams were received and just at midnight, Col. William M. Singerly, his late opponent, sent the following:

"Hearty congratulations and wish your administration may be as successful as your campaign.

It was late this morning when the last of the many guests departed and the General and his family were able to retire for a brief rest. General Hastings is around town this morning and is receiving the congratulations of his neighbors.

Tuesday's Elections

From all over the United States come reports of wonderful gains and victories [illegible] profound and so worthy of congratulation for the republicans as in New York State. There with Hill as the standard-bearer, and Tammany to fight the republicans made a wonderful and most signal victory with one of the most overwhelming majorities ever given a republican in that Commonwealth.

But to see a magnificent victory we need not look beyond the borders of our own State. Here it was not a question so much of victory as of majority, but the majority rolled up from the billowy waters of the Ohio to the tranquil Delaware is certainly large enough to satisfy the mind of any man. Such a majority as Hastings was given on Tuesday is unprecedented in the history of the Keystone State. Two hundred thousand and over; just think of the unheard of popularity of the man who can poll such a vote and the convincing arguments that must have been presented to people all over the State to induce them to come out and vote.

Four years ago, or in 1890, General Hastings was defeated for the nomination, and now, only four years later he has triumphed not only over Democracy, but over those who were again him four years ago. Two hundred thousand majority, what an argument for protection to home industries and what a compliment to Centre county as well as to General Hastings. And in all this big array of figures his own county has cause to feel ashamed for the noble way which it stood up for General Hastings giving him an increase of almost fifteen hundred votes over the usual poll.

General Hastings' administration will be as successful as his campaign and elective been.

The Prohibiton Tote.

The Prohibition party of Centre county votes for their several candidates as follows:

[illegible]. L. Hawley, for governor, 325; [illegible] L. Castle, for lieutenant governor, [illegible] Chas. Palmer, for auditor general, [illegible] L. R. Gleason, for secretary of interior affairs, 353; Elisha Kent Kane, for [illegible] assman-at-large, 356; L. G. Jordan, [illegible] ongressman-at-large 362; W. H. Watt [illegible] ongress, 332, J. B. Soule, for senator, [illegible] Thomas Young and John Craig, for [illegible] islature, 341 and 333, respectively; [illegible] rt T. Ames, for president judge, Jacob Shuey, for associate judge, 448 [illegible]. Bell, for jury commissioner, 411.

[illegible] Peoples party of Centre county is [illegible] but it has more than doubled its [illegible] over the largest ever cast before. The [illegible] was as follows: Jerome T. Ailman, [illegible] vernor 46; Jerome B. Akin, Lieut. Governor, 31; Deisher, Auditor [illegible] al, 24; Abraham J. Louch, Sec. of [illegible] Fairs, 58; Lotier, Congressman-at-[illegible] 20; B. T. Greeman, Congressman-at-[illegible] 18.

General Booth's Social Scheme.

The gigantic social scheme inaugurated in London a few years ago by General William Booth, of the Salvation Army, has already borne much good fruit, according to his personal review of the subsequent progress of his ameliorative colonies. The General's avowed purpose was to establish communities which should drain the worst districts of the English capital of their unemployed poor and transplant these generally vitiated citizens to regions where the conditions would be more conducive to a better manhood.

The colonies have proved thoroughly successful from this point of view, beginning with the settlement thirty miles outside of London and including the far colonies in Africa, Australia and Canada. The British Government has recognized their value by granting them subsidies; and even the poorhouses of England are farming out a multitude of their paupers in this way. For each pauper the Salvationists receive five shillings a week. Every colonist is made to work out practically his or her own support. The only wages paid by the Salvationists range from 7 cents to $1.50 a week, upon a basis of length of service. The system has vindicated its practicability to employment on the largest scale; and it only remains to be seen, in the main colony soon to be established, whether the communal feature can be as triumphantly developed under Salvation Army government.

LETTER LIST

The following letters remain in the Bellefonte P. O. uncalled for Nov. 7th, 1894.

Andra Leevinak, Andrija Fruba, John Yuhas, W. Kustaa, W. Hubba.

When called for please say advertised.

DAVID F. FORTNEY, P. M.

THE Democratic party has always been the party of corruption, avarice and greed. It has no principles but to win by deception and fraud. The parties of this country that have principles to fight for are Republican and People's (or Populists), they will be the great parties of the future.

THE SOLID SOUTH BROKEN.

WEST VIRGINIA IS ALL REPUBLICAN BY A GOOD PLURALITY.

Four Congressmen, the Legislature, the Popular Vote and a U. S. Senator the Net Results—13,000 Plurality for the Republicans.

Charleston, W. Va., Nov. 7.—With the legislature having fifteen republican majority on joint ballot, the election of Stephen B. Elkins, to succeed J. M. Camden as United States senator is generally conceded. Elkins managed the campaign against Wilson, as well as the legislative canvass. Republicans are elected in all four of the congressional districts as follows:

First—B. B. Dovener, 4,323.

Second—Alliston G. Dayson, 2,000.

Third—James H. Huling, 3,500.

Fourth—Warren Miller, 2,000.

The republicans have over 13,000 plurality on the popular. This is the first time West Virginia has gone republican

in twenty-two years, having since 1872 been classed with the so-called "Solid South."

The register's preliminary estimate of the new legislature, based on returns at hand is as follows:

[illegible] cans 2; total, democrats 16, republicans 10.

House—Democrats 22, republicans 48. On joint ballot, democrats 38, republicans 58.

Democracy's Death Knell.

"The New York Advertiser" expresses a sentiment that will meet a response in the heart of every loyal american, it says:

The battle is over. The enemy is routed. Republicanism has triumped. Protection will still protect and Tammany is overthrown.

The victory means that the great American people have been aroused and have shown themselves worthy of their glorious heritage. It means the death beyond all possibility of reuscitation of that party that for forty years has never had power without showing an increased capacity for blundering and incompetency.

Finally the victory means that from the lakes to the gulf and from the Atlantic to the Pacific we should give thanks for the downfall of the Democratic party and all it stands for and for the triumph of protection, law, order, good government and all that makes for the glory of the nation.

The Democratic party is indeed dead, and it cannot be born again.

"Praise God from whom all blessings flow"

The battle of the ballots seem to show, that the Populist party is to be the party that will in the future come to the front as the opponent of the Republican. The Democratic party is dead. Peace to its ashes.

Congress Solidly Republican.

Washington, Nov. 7.—At 8 o'clock tonight Mr. Babcock Chairman of the Republican Congressional Committee, gave out the following statement: Returns received up to this hour show that we have elected over 250 members, with several states to hear from. We have carried the solid Congressional delegation of 23 states. We have carried the majority of the delegations in 30 states, thereby enabling us to elect a President, in case the election should be thrown in the House.

The returns indicate that we have secured control of the Senate by a majority of 1 to 3, without counting the vote of North Carolina, which has undoubtedly elected a Republican Legislature.

—On Saturday evening, at the residence of the bride's parents on East High street Miss Annie Miller, daughter of Mr. Herman Miller, was united in marriage with Epley Gentzel, son of Mr. Benjamin Gentzel, Rev. Miles O. Noll officiating.

THERE is but one democratic congressman elected in this state, Erdman, from the ninth district.

THE CZAR IS DEAD.

Alexander the Third, Emperor of Russia, Passes Away.

Livadia, November 1.—The czar of all the Russias died at 1.30 o'clock to-day.

Yalta, November 1.—The czar was told on Tuesday that he could live only a few days more. He listened composedly. During the rest of the day he passed most of his time in disposing of his personal and family affairs. Then he calmly awaited the end with his consciousness broken only occasionally with short periods of coma. Yesterday morning he looked for the last time from the windows of the palace. He was long silent; then he said it was pleasant to feel that he could pass his last hours on Russia soil. Last night he had no sleep. He was racked constantly by violent coughing and hemorrhage. His heart grew so weak that it often seemed to have stopped beating.

These distressing symptoms became much accentuated at 10 o'clock this morning, but shortly afterwards the czar rallied slightly. He was fully conscious. He wished the sacrament to be given him in the presence of the family and he received the viaticum with grateful fervor. An hour and a half later he was seized with violent spasms. It seemed as if death had come, but he rallied again and at 12.30 he appeared to be free from pain—even comfortable. But the weakening heart beats and breathing told his physicians that the end was coming fast. He was conscious almost to the last moment. At 2.15 his eyes closed slowly and he ceased breathing.

The body will be embalmed in Livadia to-night and will be exposed in the palace chapel for a day or two.

Several state officials left St. Petersburg for Livadia this evening. According to the tentative arrangements made to-night the body will be conveyed aboard the imperial yacht Polar Star to Odessa. It will be escorted by the whole black sea fleet, which has orders to assemble at once off Yalta. From Odessa the body will be taken on a special train to St. Petersburg and will be placed in the Cathedral of Sts. Peter and Paul. The final ceremonies will be held probably in about two weeks. It is understood that Czar Nicholas II will be proclaimed to-morrow; that the Grand Duke George, Alexander III's second son now ill in the Caucasus, will be declared the heir, and the troops and state officials will take the oath of loyalty and allegiance on Saturday. State mourning is expected to begin on Saturday.

The Dead Emperor.

There could be no sadder life than that just ended at Livadia. A man who had become the absolute ruler of a hundred [illegible] might command our admiration or contempt, according as he should succeed or fail, but could make no claim upon our sympathy. But the man with no desire for power or personal aggrandizement of any sort, and with no special aptitude for affairs, who has such an office thrust upon him against his will, and who yet accepts the burden as one divinely imposed, with the conscientious determination to fulfill its duties to the uttermost of his power, whatever the discouragement and the danger—such a man is entitled to our most sympathetic judgment.

It is hard for us, from our Western point of view, to estimate rightly what the Empire of the Russians means. There are a few literary Russians of European education who inveigh against the existing government, but there are millions and millions more who have known or imagined no other, and who look up to the Czar as the father and defender of all his people. And this is what the Czar believes himself to be. It is not an arbitrary assumption of power. It is the bearing of an awful load, put upon him by his birth; a burden that he cannot escape, and that weighs upon him night and day, crushing out all joy from the life of one whom nature seemed to have planned only for simple enjoyment and domestic tranquility.

Methodists in Session.

Philadelphia, Nov. 1.—Bishops and prominent church men of the Methodist Episcopal church from all parts of the United States assembled here to-day at the annual meeting of the general committee of church extension. The duty of the committee is to map out the work of the board of church extension for the ensuing year; to fix the amount to be asked from each conference, and to authorize the amount that may be expended within the boundary of each conference during the year. It has also the authority to formulate rules for the government of the board.

Many of the churches throughout the country need assistance, and they are appealing to the board for donations or loans. According to representation of the churchmen, a number of church properties will be sacrificed for this purpose unless aid shall be received. Bishop Bowman, of St. Louis, senior bishop of the United States, is presiding over the sessions.

Wages Will be Reduced.

Fall River, Mass., Nov. 1.—The following notice was posted this morning in the iron mills:

"Notice is hereby given that a reduction will be made in wages of operatives employed by this corporation to take effect November 5. At the same time to accommodate our method of payment under the particular bills waiving will be paid for by the pound instead of by the piece."

The iron works mills are owned by M. C. D. Borden, of New York, and did not cut the wages when the vacation began August 20, but have been running at the old rate since. The help do not know whether the reduction will be five or ten per cent.

Favored by Weather.

Good weather favored our farmers this year in the housing of all their crops a thing unusual, and we know of no year in which the weather was so favorable for haymaking and harvesting of wheat, oats and corn. The hay crop was taken in without a sprinkle of rain, which we never knew to be the case in any previous year. The wheat ripened, was cut, and hauled into the barns without damage by rain. Next came the oats crop, which is seldom harvested without some of it being bleached by rain, except this year, not a shower having moistened it. We now see the end of corn husking; there was one rain, but it did not hurt it, as a clear-up soon dried it, and it went into the cribs in fine condition.

Stabbed His Wife.

Nashville, Oct. 31.—W. F. MacGrudder, a prominent citizen of White Sulphur Springs, stabbed his wife to death to-day. After he had intercepted a letter from a man to her, he asked her father to take her home.

The father arrived, and while talking over the trouble together, MacGrudder suddenly became enraged and plunged a knife into his wife's heart. As she died, MacGrudder kissed her tenderly, saying she was now safe from the temptation of scoundrels. He was 30 years her senior.

An Engineer Killed.

Pittsburg, Nov. 1.—The Bissel accommodation train, leaving Pittsburg on the Baltimore and Ohio railroad at 9.25 p. m., collided with the rear of the Baltimore express train No. 10, standing on the main track near Rankin station, twelve miles out, at 9.55 o'clock to-night. Engineer P. C. Brainard, aged 50 years, of the accommodation, was instantly killed, and his fireman, Frank Cunningham, aged 36, was perhaps fatally injured. None of the passengers on either train were injured.

Will Have Heavier Rails.

The Pennsylvania railroad company has decided to increase its standard of weight of steel rails on the Main line from eighty-five pounds to 100 pounds. The change is to go into effect next year, and all new rails between Jersey City and Pittsburg will be of the new standard. The increased is principally due to the heavier locomotives which the company has been gradually acquiring besides the increase of [illegible] length, [illegible] the thirty-foot rail now generally used.

A Conscientious Chewer.

Steelton has a citizen who has used every branch of chewing tobacco brought to his notice in twenty years except the "Vinco." For this he gives as a reason that the trade mark used on the tobacco is the quotation used by Booth when he shot Lincoln, and he thinks that by using this tobacco he would countenance the dastardly work of the villain.

PINCHED FACES.

PECULIAR TO AMERICAN WOMEN.

Some of the Causes which Appear upon Investigation.

[SPECIAL TO OUR LADY READERS.]

Ask them "What can be the matter?" and the invariable answer is, "I don't know." The eyes droop, and an air of deep gloom seems to overwhelm them. Press your questions a little closer, and you find avoidance of all society, reluctance to make the slightest effort, all accompanied with a crushing sense of bearing down.

"WHY DON'T WOMEN HAVE MORE FAITH?"

Further investigation discloses irregularity of periods, dizziness and faintness at times, and perhaps leucorrhœa.

Then surely the evidence is all-sufficient.

An American woman has discovered that the cause of all this lies in a deranged and diseased uterus or womb.

Lydia E. Pinkham's Vegetable Compound is the most marvellous cure for this trouble ever discovered.

A purely vegetable remedy, it is at once an absolutely safe and natural cure for this crushing trouble.

It has cured thousands, and will cure you as sure as truth is truth.

Here is a letter from one of them which she wants us to publish:—

MRS. HARRIET WAMPLER

"For years I have been almost a constant sufferer from female trouble in all its dreadful forms: shooting pains all over my body, sick headache, spinal weakness, faintness, dizziness, depression, and everything that was horrid. I tried many doctors in different parts of the United States, but Lydia E. Pinkham's Vegetable compound has done more for me than all the doctors.

"I feel it my duty to tell you these facts that you also may be cured. My heart is full of gratitude to Mrs. Pinkham." —Mrs. Harriet Wampler, Box 944, Baraboo, Wis.

IT KILLED IRELAND,

Did Free Trade, and Yet They Want Irish-Americans to Vote for the Party That Favors It Here.

The Catholic Citizen, of Chicago, one of the most influential newspapers of its class in the west, in a recent editorial article said: The Hon. A. L. Morrison is in the state of Ohio campaigning for the protection idea. This gentleman combines qualities rare in the same person, the ability to speak in a masterful manner and to write with an equal degree of force. It is quite safe to say that no man of all the parties in America is more thoroughly a scholar on the economic issue than Mr. Morrison. He has made the question not alone a study, but a lifelong study, and his articles on Protection vs. Free Trade, published in The Citizen recently, have been copied far and wide throughout the Union. The Ohio State Journal of Oct. 5 put the following question: "Does the Irish-American like the scene just presented, that of the great Democratic statesman and protege of Cleveland being feasted by the London Chamber of Commerce?"

Dr. Morrison sent a characteristically able reply to The Journal. In the course of it he said: "England enacted the most cruel and barbarous laws against us and our faith until Ireland became the only spot on earth where Irishmen could not live like human beings. She scouged famines and pestilence for the avowed purpose of exterminating our entire race. Failing by all her worse than heathen atrocities to destroy us in olden times, she invented a scheme more deadly than fire and sword, more destructive than war and more baneful than famine. This invention is called English free trade. The Irish manufactures which survived the prohibitory decrees of the brutal Plantagenets, the barbarous Tudors and the cold blooded Stuarts died the death which has known no resurrection under the vile free trade law of the worthless house of Brunswick. Before the enactment of the infamous law Ireland manufactured all her own people needed for their comfort and luxury and exported large quantities of goods to foreign countries. Since then she manufactures almost nothing for either home consumers or exportation. Destitution, idleness and famine have followed free trade as naturally as night follows day. Having driven millions of Irishmen to American English writers and speakers have never ceased (both here and at home) reviling and slandering them whenever and whenever occasion offered. What wonder then that hatred of their tyrants became an Irish passion? We would be less than men if it had not.

"But here is a mystery that has defied all attempts at explanation: these victims of English misrule come to America and largely ally themselves with the only pro-English party in the union. Even when the same free trade which rooted out Irish manufactures has become a Democratic dogma, and is today producing the same dire results it produced in Ireland, Irishmen are found blind enough to adhere to that party. If anything can open the eyes of the Irish Democrats, the scene you allude to surely ought to do so. Oh, the shame of it! W. L. Wilson, the author of the free trade measure which bears his name, immediately after its passage hastens to England to receive the thanks and [illegible] [illegible] gentlemen, inhaling the aroma of wine and flattery, he receives their thanks for the services he has rendered them. When he is assured that his is the most honored name in England, when he loyally drinks Victoria's health, and his own is pledged in return, he openly declares that 'the Republican party has for years kept up the barriers against English goods, and that the Democrats have torn them down,' and when the banquet who presided complained that the Wilson-Gorman law was not as good as the English expected that it would be (although it had reopened many mills and factories in England), he was consoled by the declaration of Cleveland, Wilson and all the other Democratic wreckers that said law was only a beginning.

"Irishmen, is it possible that any of you will continue voting for a party whose leading man thus toadies to your ancient enemy? Not a vote of thanks, not a word of praise, not a banquet does he receive in all America. The people he has misrepresented and deceived in West Virginia are preparing his political grave. He needs consolation and he goes where he knows he can get it—to England, whose mills and factories he has reopened at the cost of closed mills and factories in America. Benedict Arnold was not guilty of worse treason than this. He attempted to betray his country for England's benefit. Wilson knows that the Democratic party could not live a day without the Irish vote, and yet he goes to their deadliest enemy, to the lords who spat upon the home rule bill and flung it contemptuously in Ireland's teeth, and congratulates them on the ruin he has wrought in America and the prosperity he has given to them. Before the passage of the 'bill for the protection of English manufacturers' tens of thousands of Irishmen cast their votes in protest against it, and this fall hundreds of thousands more will vote against the party which has inflicted it on America, and in doing so they will show how they like the shameful un-American and pro-English scene of the Wilson banquet in London."

IMPORTERS' ADVERTISING CARDS.

The following notices, taken from advertisements of importers of foreign goods, are given a national application:

Owing to reductions in the tariff we offer greater bargains than ever.

Owing to reductions in the tariff Maine and Connecticut roll up unprecedented majorities for the party of protection.

Our prices are lowered with the tariff.

Democratic chances for carrying [illegible] state where industry formerly thrived are also considerably lowered with the tariff.

Great reductions on account of new tariff bill.

Yes, great reductions in work and in opportunities of employment; great reductions in wages and in ability to buy cheap things so industriously advertised.

Great resumption of industry. Our stores crowded daily.

Our industries are not helped when the importer's store is crowded. It is the whir and rattle of the loom and the spindle, the hum of productive machinery that helps our industries. Activity in the importer's shop means activity of industry in Europe, not in America.

Locals in a Line.

—"Jane" is coming to Bellefonte next Friday evening.

—Mr. John Bryan now carries the mail from the Bellefonte Central railroad trains to the postoffice and vice versa.

—Very little damage was done by the boys Hollow E'en night, but assistant postmaster Howley did not need open his gate to get out this morning.

—The store of Brown Bros., Lewisburg, was broken into early Wednesday morning and $300 worth of fine dress goods stolen. Chief Keller was notified to be on the lookout for the burglars.

—Between the laying of the new water pipe and the repairs being made by the steam heating company the streets of Bellefonte present anything but a nice appearance at present.

—The improvements around the Pennsylvania railroad depot are being pushed to completion quite rapidly, and it is safe to say that locality will be decidedly improved when everything is furnished.

—We are pained to record the serious illness of Col. D. K Tate, at his home on Penn street. Mr. Tate is suffering with diabetes and his recovery is very doubtful. Mr. Edmund Blanchard is also said to be very low at his home on Linn street.

—The Catholic fair will begin on Monday evening at 5 o'clock with a supper of chicken and waffles, ice cream and cake for 25 cents. There will be a turkey dinner, with saurkraut, on Tuesday for only 25 cents. The fair will be continued during all of next week.

—The pupils of the borough high schools have secured the Ariel Quartette, of Boston, to give an entertainment in Garman's opera house Friday evening Nov. 16. The proceeds will be applied to the school library. There should be no trouble in getting a crowded house for this concert; for this musical company is one of the finest on the road to-day. Any who miss this entertainment will miss a rare treat.

Death of Rufus Toot.

Rufus Toot, youngest son of Thomas and Catherine Toot, died at his home on East Beaver street, about 1 o'clock Thursday afternoon, Nov. 1st, with concussion of the brain. The deceased was aged 10 years and 7 months. He was a bright young boy, and loved by all who knew him. Besides a father and mother he leaves to mourn their loss two brothers and three sisters. There will be a short service held at the house to-morrow (Saturday) morning at 8 o'clock, and he will be taken to Sprucetown for burial.

The Human Electrical Forces!

How They Control the Organs of the Body.

The electrical force of the human body, as the nerve fluid may be termed, is an especially attractive department of science, as it exerts so marked an influence on the health of the organs of the body. Nerve force is produced by the brain and conveyed by means of the nerves to the various organs of the body, thus supplying the latter with the vitality necessary to insure their health. The pneumogastric nerve, as shown here, may be said to be the most important of the entire nerve system, as it supplies the heart, lungs, stomach, bowels, etc., with the nerve force necessary to keep them active and healthy. As will be seen by the cut the long nerve descending from the base of the brain and terminating in the bowels is the pneumogastric, while the numerous little branches supply the heart, lungs and stomach with necessary vitality. When the brain becomes in any way disordered by irritability or exhaustion, the nerve force which it supplies is lessened, and the organs receiving the diminished supply are consequently weakened.

Physicians generally fail to recognize the importance of this fact, but treat the organ itself instead of the cause of the trouble The noted specialist, Franklin Miles, M. D., LL. B., has given the greater part of his life to the study of this subject, and the principal discoveries concerning it are due to his efforts.

Dr. Miles' Restorative Nervine, the unrivaled brain and nerve food, is prepared on the principle that all nervous and many other difficulties originate from disorders of the nerve centers. Its wonderful success in curing these disorders is testified to by thousands in every part of the land.

Restorative Nervine cures sleeplessness, nervous prostration, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is free from opiates or dangerous drugs. It is sold on a positive guarantee by all druggists, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid.

JUDGE FURST WILL RESIGN.

The Work A Judge Has to Do in This District. It is Enormous.

Some time ago it was unofficially announced that Hon. Austin O. Furst would resign the President Judgship of this, the 49th Judicial district, but nothing definite could be learned of the matter. In a conversation with the writer Mr. Furst stated that he had finally concluded that he would resign and that as soon as he had counted the official returns of Tuesday's election and made his report to the Secretary of the Commonwealth, which will be about November 15th. Judge Furst does this for two reasons, both of which are good ones and entirely devoid of any political feeling whatever.

At the last term of Argument court in Huntingdon county every case that was then on the docket was disposed of, so that at the present time there is no unfinished or continued business in that part of the district. In Centre county there are but four or five such cases and, these could not be disposed of because the attorneys were not ready to try them. Thus by resigning at the time stated Judge Furst will retire from the bench leaving very little unfinished business for his successor to complete. If he should hold the November term of court in Centre county and the December term in Huntingdon county there would probably be a long list of cases held over until the January term of argument court, after Judge Furst's term would regularly expire, to be disposed of, and this would bring the incoming Judge into work that it would be difficult to do. Another reason for his resignation is a personal one—to enable him to get into practice as soon as possible, which he hopes to do by the regular January term of court.

There is no denying the fact that Judge Furst has made an able Judge and will pass out of office with a record not surpassed by any Judge who ever occupied the bench in Centre county. He has labored indefatigably all the time to perform his duty faithfully, and well and at all times strove to so conduct the court it would elevate it to a higher place than that occupied by most courts. How well he has succeeded it is hardly necessary to mention here, as every one who attends court has been able to discern this fact for themselves.

In view of the fact that Centre county has for some time been striving for an apportionment into a separate Judicial district, a few statistics of the amount of work a Judge has to do would not be out of place. During the past ten years Judge Furst has heard and disposed of an average of 200 criminal and 84 civil cases per year in Centre county, and 120 criminal and 48 civil cases in the [illegible] county. In addition to this the argument court list will average 240 cases per year in Centre county and 160 per year in Huntingdon. This makes a total of 877 cases per year that was disposed of in one way or another or a total of almost nine thousand cases in his ten years' term. In addition to this the Orphan's Court litigation in both counties is quite heavy, there being hundreds of accounts of Executors, Administrators, Auditors, Guardians, etc., to pass upon in addition to a large number of petitions every court. During the past ten years Judge Furst has had tried before him in the district fifteen murder cases and in not one case was there an appeal taken from judgment. There has been a yearly average of about twenty cases, or a total of two hundred, carried to the Supreme Court, and out of this number, Mr. Furst was reversed in but ten cases in which he had erred in the law. This would be an average of but one error a year.

On the license question Mr. Furst's record is also well known. When he took his seat there were over sixty licensed houses in Centre county. These have been reduced one-half, and for a number of years, until he was over ruled by the associate judges, only eighteen were granted. In Huntingdon county the list was cut down fram 24 to 7.

In addition to his work in the district Judge Furst has presided over the courts of Blair, Cambria, Clearfield, Clarion, Lycoming, Cumberland and Lackawanna counties, hearing all manner of causes, including three murder trials. There were a number of appeals, but not one reversal in all the cases carried to the Supreme court. Mr. Furst told the writer that in all his experience as Judge his first impression of a case always proved to be the correct one but once. One time he wrote two opinions and used the second one and it was the right one.

In Mr. Furst's retirement he cannot help but be followed by the best wishes and most earnest respect of every member of the Centre and Huntingdon county bars. He will at once resume the active practice of law.

Week of Prayer at the Y. M. C. A.

The "week of prayer" observed in all lands by the Young Men's Christian Association, will be held November 11th to 18th. The Bellefonte Association have arranged for a series of lectures to be given by Dr. C. A. Dorman, of New Haven, Conn., and will be held in the gymnasium building. The Doctor is highly endorsed by Bishop Goodsell and the late Dr. J. O. Peck, of the M. E. church, and of several other prominent clergymen and association workers. The present secretary of the Association has known Dr. Dorman for several years, and thereby can assure the people of Bellefonte that a rich treat is in store for them. The Doctor is by no means a tramp evangelist, nor has he any patent medicines to sell, and does not treat patients, and is actuated by no other motive than a desire to warn, instruct and win souls to Christ. The lectures will be free to all, and the room should be crowded every night.

Rev. Russell Conwell on Advertising.

Pretty much everybody in this country knows of Rev. Russell H. Conwell, of the Baptist Temple, at Broad and Berks streets Philadelphia Last night he lectured before an immense audience on the subject of "Five Million Dollars for the Face of the Moon." The title of the story was very mysterious. But it turned out to be a cover for a dissertation on advertising, not only the advertising of business, but the advertising of everything good. It was another form of the injunction to let your light shine. Mr. Conwell couldn't find words too strong to express his belief in the usefulness, not to say duty, of advertising, and his lecture showed that he had some very wise and useful ideas on the practical side of the subject, both as to business and philanthropy. The title of the lecture arose from the remark once made by a patent medicine proprietor of a pious and charitable disposition, who, having made a vast fortune by advertising exclaimed that he would give $5,000,000 for the privilege of having this inscription placed on the face of the moon, "F. G. and A. L," which being explained meant: "Find good and advertise it." In the course of his address Mr. Conwell said that advertising should always be associated with some good thing that the people like. Then he told this story, which he declared is unquestionably true: "One of the ablest members of Congress, when he began his political career, went to the manager of a newspaper and paid him so much a week to print his name every day in connection with some good thing. He kept that up for four years, and at the end of that time he was so well and favorably known in his town that he got the Congressional nomination unanimously, was elected, and he may remain in Congress as long as he lives if he so desires." Mr. Conwell said that he would not give the name of the Congressman, but repeated that he had heard the story from such a source that he pronounced it absolutely true—Harrisburg *Telegraph*.

Young James G. Blaine.

New York Sun.

James G. Blaine is probably one of the most knowing college students in this country. He has been thrashed in half a dozen different cities, has passed through a sensational divorce suit, and has crowded as much experience into his 28 or 30 years of life as most men who have passed considerably beyond his age. His ap[illegible] along with 10 other students at the University of Virginia seems somewhat odd. His talent for obtaining publicity is as vigorous as ever, and he is already a noted figure in his new field. His exploits during the early part of the season were such that the attention of referees and umpire was turned toward him continually, and he was put out of two games for brutality and slugging. Young Blaine has developed in a remarkable way, physically, and, from the puny, cigarette-smoking youth of 10 years ago, has become broad, fat, and of powerful build. He recently got out of training by burning the midnight oil and in the game which his college—the University of Virginia—played with Pennsylvania he was taken out at the last moment and another player substituted. Mr. Blaine is taking a law course but foot ball is the absorbing interest of his life at the present moment.

No Crime to Jump a Board Bill.

According to a decision just rendered by Judge Barker, of Cambria county, it is not a crime to jump a board bill in Pennsylvania if no false pritense has been resorted to. George Hoover, of Johnstown, skipped a board bill last week and was sentenced to thirty days in jail for it by Justice of the Peace Burkett, of Morrill ville. The Cambria county commissioners made a test case out of it, took out a writ of habeas corpus and had Hoover taken before Judge Barker, who decided he had committed no crime under the law and was therefore illegally imprisoned and so he was discharged.

OLD SOLDIERS, READ!

HOW THE TARIFF REFORM, PENSION—REFORM PARTY TREATS THE

Disabled Veterans of the War.

They Cut Them Down Without Warning. Give Them No Chance to Prove Their Claim, but Want Their Votes All the Same.

The Case Of Albert Roberts.

One of the latest cases of summary injustice to an old soldier that has come to our notice is that of Albert Roberts, of Moshannon, a man who served four years in the army, or during the entire war of the rebellion, three years as a member in Company K, 45th Regt. Pa. Infantry, and eighteen months as a veteran; was wounded several times and now with the trouble caused by said wounds and increasing age, is almost totally disabled; sometimes being confined to his bed for six weeks at a time. Mr. Roberts made application for and was granted a pension, at the rate of $12 per month, on the 15th day of December, 1890, under the act of June 27th, 1890; granted, according to the certificate issued to Mr. Roberts, for "fracture of the right arm, spinal curvature, etc.," which ailment rendered him unfit to do much manual labor. Mr. Roberts continued drawing this pension of $12 per month until August 4th, 1894.

On October 15th, 1894, Mr. Roberts received a letter from the Pension department at Washington enclosing a new certificate of rating in which his pension was cut down just ONE-HALF, or to SIX DOLLARS A MONTH, and in this certificate it stated "This pension being for partial disability to earn a support by manual labor." In the certificate, or in the letter accompanying it, were no provisos of any kind. The action was absolute. Mr. Roberts was given no chance to defend the righteousness of his claim by proving his disability before a properly constituted board of examiners. Last February he was before the board, who certified [illegible] condition was a bad one. Some time in August last he was instructed to go to a physician for examination, and he went before Dr. Berg, of Snow Shoe. After a thorough examination the Doctor certified to the department that Mr. Roberts' condition rendered him totally unfit for manual labor. This was all there was to it. [illegible] intimation of any kind that the rating was then too low, was being considered with a view of cutting it down. No thought at all that the sum granted him by a Republican administration, the full limit of the law, but which was barely enough to support Mr. Roberts and his family, was to be cut down by a Democratic administration, and that to one-half the amount. Mr. Roberts had no intimation, not even a thought of anything of the kind, and was therefore the more surprised when he received the letter and new certificate of rating on the 15th day of October. And the worst part of it is, he will have to submit as long as the present administration is in power. There is no recourse but to vote them out.

Pennsylvania did her duty in this respect last Tuesday and we hope the old soldiers and their friends will continue to administer a similar rebuke in all future elections.

What do the old soldiers of Centre county think of the above case, which is only a sample of hundreds and thousands of others? A paltry $6 a month only allowed a man who fought for his country for long years or more, receiving such wounds as to render him almost totally disabled for life, and then the party that is willing to allow this munificent (?) sum pretends to be the soldiers' friend and goes to him begging for his vote. Will you ever give it? Will you ever sanction the action of the pension department in the case of Albert Roberts by casting your ballot for the Democratic party? We hope not, and we believe not. We do not think there is one old soldier in Centre county who, after reading the above statement of facts, will ever again be willing to do the very thing which he cannot help but know daily bringing distress, even starvation, to some old comrade.

There is a presidential election coming in 1896 and every old soldier should remember the case of Albert Roberts and a thousands of others who have received similar treatment at the hands of this reb-ed administration. You should henceforth and forever resolve that you will vote only for that party that has always and consistently the soldiers' friend. Call it waiving the bloody shirt, if you will, but we say a soldier should vote as he fought. It is the only proper thing to do.

Moore—Spencer.

On Tuesday, Oct. 23rd, 1894, Mr. Chas. Moore, of Bellefonte, was married to Miss Margaret A. Spencer, at the home of her step-father, John Foster, at DuBois, Pa. The wedding was a private affair, none but the near relatives being present. There were quite a number of valuable presents received by the young couple among which was a piece of valuable real estate in that town, to the bride. Mr. Moore is an artist and superintends H. B Shaeffers studio during his place. They will make their home in Bellefonte in the near future.

Held a Meeting.

A meeting of the members of the Centre Hall Evangelical charge, composed of five congregations, was held in the Rockhill church, at Linden Hall, on Wednesday. The purpose of the meeting evidently was to place this charge in line with the United Evangelical church, the members apparently being unanimously inclined that way. Bishop Haman was present.

WASHINGTON LETTER.

Washington, Oct, 29, 1894.

(From Our Regular Correspondent.)

Whether it was conscience that made Secretary Carlisle act, or the order of Mr. Cleveland, is immaterial. He has acted, and Mr. Morton's undercoachman, who was unjustly arrested by an over zealous democratic official and conde mned to deportation by another, on the flimsy pretext that he had been brought to the United States in violation of the alien contract labor law, is a free man. This action was only taken after the use of an amount of red tape, which under the circumstances was little short of disgraceful to all who had anything to do with the matter. Before Mr. Carlisle acted the case was formally referred to the Attorney General for a legal opinion and was discussed at a Cabinet meeting, and yet his decision, that the man was a domestic servant, would have been arrived at by a school boy in one minute after the question was put to him. The fact of the matter is, that the administration has been made ashamed of the whole business by the general condemnation of such peanut methods of trying to make capital against Mr. Morton which this arrest has received from reputable newspapers, regardless of politics.

All of the republican messengers and watchmen in the departments at Washington and in the custom houses throughout the country having been supplented by [illegible] order, extending the classified service to include those positions, and the country is duly notified that another great advance in civil service reform has been made, and incidentally, that several hundred democrats who otherwise would have expected to have stepped down and out of the public service soon after the inaguration of the next republican President—March 4, 1897—now complacently look forward to drawing a government salary for the rest of their lives.

The good things promised with the new tariff law are slow in making their appearance, but some of the bad things it has brought are very much in evidence. For instance, according to the official figures, the public debt of the United States increased more than thirteen million of dollars during the month of October—to be exact, $13,680,854. The Treasury surplus which the country was assured would soon be accumulated under the new tariff may come in time, but no indications of it are in sight yet, unless one wears peculiarly constructed spectacles.

"I notice," said an Indianapolis man who is in Washington on private business, "that Gen. Harrison has been letting the public get a glimpse of a part of his mental make-up that only those fortunate enough to be on terms of personal intimacy with him have known he possessed. I refer to his ability as a humorist of the refined, Oliver Wendell Holmes sort, which bubbled up in several parts of his recent New York speech, which, by the way, has never been excelled in a single speech as a concise statement of the difference between the republican and democratic parties. His using the grasshopper, because nobody knows in what direction it will next jump, and which doesn't itself know, to illustrate the position of the democratic party on the great questions of the day, was one of the aptest hits of the campaign, and I predict that the term "grasshoppers" will stick to the democrats during the next Presidential campaign, and longer, if that party survives another national election."

"Like master, like man. "Mr. Cleveland's coldness towards the candidates of his party made itself felt very perceptibly in the ranks of the small fry office holders, and it will be strange, indeed, if some of the defeated candidates do not take advantage of the coming session of Congress to let Mr. Cleveland and the country know what they think of such party treason. A month ago it was expected by the democratic managers that not less than 6,000 democratic office holders would go to their homes in the several states to vote, and the estimate would have been a very conservative one had Mr. Cleveland not set the example of refusing to register and vote. With that example before them two-thirds of the democratic office holders concluded to save the price of a trip to their homes. It is said, but that I do not vouch for, that a quiet tip was given to New York democrats in office, that they would stand better with their superiors if they did not go home to vote. At any rate few of them went, and those who did go were mostly personal friends of democratic candidates for Congress.

HAVE YOU HEARD?

A Little Secret Whispered for the Ladies. This Secret is Not Only for Young Ladies, but for the Mothers of Families and for all Interested.

MRS. E. L. TAYLOR AND DAUGHTER.

Wonderful and extraordinary events among well-known women strongly and powerfully interest all. This country is filled with noble-minded women who earnestly desire to promote the welfare of their sex. One of the brightest and most intellectual of these is Mrs. E. L. Taylor, who resides at 17 Baker Block, Main St., Ticonderoga, N. Y. She says:

"A year ago I became fearfully nervous and completely run down so that I was obliged to stop work. I got so that I could [illegible] I did [illegible] terribly. I had nervous prostration and dyspepsia, and was terribly weak.

"I tried physicians and medicines but all to no good. I had heard much about the wonders of Dr. Greene's Nervura blood and nerve remedy and began to feel that it would do me good. I determined to try it. After commencing it, I began to feel better almost immediately and steadily improved under its wonderful influence.

"After taking five bottles I was completely cured of all my complaints' and was a perfectly well woman. I cannot tell you how thankful I am for having taken Dr. Greene's Nervura blood and nerve remedy. I advise everyone to use it, for I know the good it did me and what it is doing for others."

The positive and straightforward statements made by the fore-sighted and deep-thinking men and women who are cured by Dr. Greene's Nervura blood and nerve remedy, gives to these testimonials such strength and influence that everybody acknowledges the genuine worth and marvelous power to cure of this wonderful medicine.

[illegible] nerve remedy for it always cures.

It is not a patent medicine, but the prescription of the most successful living specialist in curing nervous and chronic diseases, Dr. Greene, of 35 West 14th St., New York City. He has the largest practice in the world, and grand medical discovery is the result of his vast experience. The great reputation of Dr. Greene is a guarantee that his medicine will cure, and the fact that he can be consulted by anyone, at any time, free of charge, personally or by letter, gives absolute assurance of the beneficial action of this wonderful medicine.

Danger From Catarrh.

The most important feature about that very common complaint, catarrh in the head, is its tendency to develop into some other more serious and dangerous disease. The foul matter dropping from the head into the bronchial tubes or lungs is very liable to lead to bronchitis or consumption, that destroyer which causes more deaths in this country than any other disease. As catarrh originates in impurities in the blood, local applications can do but little good. The common sense method of treatment is to purify the blood, and for this purpose there is no preparation superior to Hood's Sarsaparilla. The powerful action of this medicine upon the blood expels every impurity, and by so doing cures catarrh and gives health to the entire organism.

The *Review of Reviews* for November in its editorial department ("The Progress of the World") has some suggestive paragraphs bearing on the present attemps at "municipal housecleaning" in the great cities of New York, Chicago and San Francisco, and takes the occasion to emphasize certain lessons to be learned from European municipal experience. In speaking of Glasgow's system of street cars, owned and operated by the municipality, the editor points out that this responsibility was not undertaken by the city until the municipal government had been tested with many large enterprises which it had shown its fitness to control and operate successfully; it is now managing its street car service, says the *Review*, as successfully as the best of our American cities manage their fire departments.

The Tillmanites, have carried South Carolina, electing Evans, governor by at least 10,000 majority. The legislature is for Tillman and will elect him to the U. S. Senate.

Ripans Tabules: one gives relief.

RHEUMATISM PREVALENT.

Rheumatism Should be Arrested in its Early Stages.

Probably there is no disease that inflicts so much continuous pain as rheumatism. When it be chronic, there are few so hard to cure. This disease is caused by an impure state of the blood. The impurity consists of an excess of letric acid, and to drive this acid from the blood is the object of all rational treatment.

The medical faculty has found in Dr. David Kennedy's Favorite Remedy, a certain and positive cure for this terrible complaint. Mrs M. Hale, of Galeton, Pa., in writing of her experience with Dr. Kennedy's Favorite Remedy, says: "One year ago I was taken with muscular rheumatism. My limbs were so bainful I could scarcely walk. I determined to try Dr. Kennedy's Favorite Remedy, and before I had used the third bottle the pain was all gone'"

Favorite Remedy cures as well chronic, acute or inflammatory rheumatism; and in all diseases brought about by impure blood, or an excess of acid in the blood, such as urinary troubles, dyspepsia, constipation, kidney or liver complaint it is a well known specific.

Dr. David Kennedy's Favorite Remedy can be purchased of any druggist at, one dollar a bottle, or six bottles for five dollars.

Important Facts.

If you have dull and heavy pain across a forehead and about the eyes; if the nostrils are frequently stopped up and followed by a disagreeable discharge; if soreness in the nose and bleeding from the nostrils is often experienced; if young are very sensitive to cold in the head accompanied with headache; they you may be sure you have catarrh; and should (immediately) resort to Ely's Cream Balm for a cure. The remedy will give instant relief.

Purify your blood, tone up the system, regulate the digestive organs by taking Hood's Sarsaparilla. Sold by all druggists.

The returns indicate, that the next House of Representatives will stand Republican 220 Democrat 125 Populist 11. The present House has Repnblicans 126, Democrats 218 Populists 12. The people wanted a change two years ago now they have had enough and want to change back. Wise afterthought.

Suspicion.

There are few greater blessings than a frank, free and optimistic nature. To look naturally upon the bright side of life, and the good qualities of those around us, and to be a little dull in detecting the clouds of the one and the defects of the other, are precious gifts which cannot be too highly prized. If some loss is implied in not knowing the whole of life it is certainly only concerning that part which is least worth knowing or emphasizing, and which will always tend to diminish under a little wholesome neglect. If some danger is involved in not being always prepared to meet the inevitable ills of life, it is far more than compensated by the freedom from the anticipation of a thousand evils that exist only in the imagination. Pessimism, on the contrary, is the foe of truth as well as happiness. Seeing whatever is dark, gloomy, sorrowful and harmful, it is blind to the brighter, better, larger part of life, and, while exaggerating and increasing the former by its emphasis, it actually crushes and lessens the latter to the extent of its influence.

One of the chief elements in pessimism is suspicion. The man always on the watch for faults in his neighbors and friends, will be sure to find plenty of real ones; but the play of his fancy, taking the same course, will conjure up a multitude of others that do not exist. He views their conduct with disgust, and is always disposed to attribute unworthy motives, even where the actions are above criticism. Especially in their relations to himself is he apt to imagine the worst instead of the best. Instead of taking for granted that they are well disposed towards him, he rather expects that they will slight and neglect him, and in this frame of mind, nothing is easier than to fancy all manner of disrespect and affronts, where none were thought of.

Fruit Culture.

A writer in the Mifflintown Tribune heralds the announcement that the time is fast approaching when there will be a permanent scarcity of the finest fruit that grows—the apple. Orchards of this fruit in the United States have been allowed to go slowly but surely to ruin, and Lower Canada is now depended almost entirely upon to supply the Atlantic coast market with apples. In Northern Michigan there has been a considerable increase in the orchard acreage, but this side of the Allegheny mountains no apples are now raised that are worthy of the name. There are thousands of acres of farm land now devoted to the raising of wheat at 55 cents a bushel, which, with half the expense and one-tenth of the attention, could be transformed into productive and profitable orchards. One acre of apples will produce as much as five acres of wheat, and the apple grower will realize as much from [illegible] bushels as he will from [illegible] bushels of wheat. Apples are worth to-day in the orchard from 50 cents to $1 per barrel, and a barrel of apples contains as much nutriment as fifteen bushels of wheat. Apples contain more than double the nutriment of potatoes, and a bushel of apples contains as much nutriment as a bushel of corn. Apples are worth more than double as much per bushel as

THANKSGIVING DAY.

Governor Pattison Issues the Usual Proclamation.

Harrisburg, Nov. 3.—Governor Pattison issued the following Thanksgiving proclamation to-day:

"In grateful remembrance of the Supreme Lord of the Universe, who is the dispenser of life, health and happiness to individuals and nations, whose infinite compassion and goodness have been manifested during the year that has passed by multiplied benedictions, and whom we pray of His infinite mercy to vouchsafe His blessing in times to come.

"Now, therefore, I, Robert E. Pattison, Governor of the Commonwealth of Pennsylvania, in conformity with the recommendation of the President of the United States, and the uniform custom of our Christian communities, do recommend Thursday, the twenty-ninth day of November, in the year of our Lord one thousand eight hundred and ninety-four, as a day of thanksgiving and prayer. On that day let all secular business be suspended and let the people assemble in their usual places of worship, and with prayer and songs of praise devoutly testify their gratitude for His goodness and His wonderful works, and so make known that we forget not all His benefits, and let there also be on this day thus set apart a reunion of families and friends, that the love for home may be strengthened and the spirit of good will increased. Let us not forget to crown the day with deeds of charity and kind remembrance of the poor, bearing in mind that "Blessed is he that considereth the poor.'"

A Judge Talks to Jurors.

West Chester, Pa., November 3.

By way of explaining to jurors the distinction that is made between cases when the costs can be imposed on the defendant and when they cannot, Judge Waddell this morning addressed himself to the jurors as follows:

"This is a subject that the public do not understand. A jury may be satisfied that a man is not guilty of the crime of which he is charged, and yet he may have behaved in such a way as to lead others to believe him guilty. His indiscreet or unlawful behavior may have been of such a character as to warrant an investigation and to have justified the Commonwealth in making it.

"The defendant in such cases, although innocent of the crime, or at least not proven guilty to the satisfaction of the jury, is nevertheless to blame in some degree and the imposing of costs upon him is the only punishment that can be given him for that offence, and it is no injustice nor inconsistency to impose them upon him. To impose costs upon him for the purpose of saving that amount to the County Treasurer would not only be a false idea of economy, but an absolute injustice. It is only when, in the opinion of the jury, that the conduct of the defendant has been such as to make him deserving of some punishment that the jury can acquit him of a crime charged, and yet imposes costs in cases known as misdemeanors."

Mercury's Transit.

Mercury, the little planet, which is, as far as known, the nearest of all the solar system to the sun, will move across the face of Old Sol on Saturday, 10th inst. This will be the first transit of Mercury since May 9, 1891. It will not be visible to the naked eye, but students and astronomers everywhere will eagerly watch the phenomenon by telescopic aid. Mercury and Venus are the only ones that cross the sun's face, as viewed from the earth. The remarkable interest that was shown in the last transit of Venus on December 6, 1892, will be remembered. The announcement that it was not to be repeated until the year 2004 caused everyone to wish for a view of such a rare occurrence. While the transits of Mercury are not so far apart as those of Venus, there will not be another one after November 10 during the present century.

They always occur during the months of May and November. Thirteen have taken place in the nineteenth century, as follows: May transits, 1832, 1845, 1878 and 1891; November transits, 1802, 1815, 1822, 1835, 1848, 1861, 1881 and 1894.

To the professional astronomer the transit is valuable as giving opportunity for an accurate determination of the planet's place, by means of which the orbit is determined. A chance is also given to measure the diameter of the planet.

THE young empress of China committed suicide a few days ago by taking poison. She was rebuked by the emperor, with whom she has not lived happily since their marriage five years ago, and took this mode of ending her miserable career, a foolish thing to do, as she might have done more good for herself, her husband and her subjects if she had waited to get older and wiser. She was only 13 years old when she was married, and the emperor, who was then only 18 years old, was obliged to marry her, through the influence of his mother, against his wishes.

Top Notch of Meanness,

A man may wear a wart on the back of his neck for a collar button, stop his watch at night to save wear, leave his "i" or "t" without a dot or a cross to save ink, turn the hog on his mother's grave to save feed, sell "monkey" veal for chicken salad, but a man of this kind is a gentleman and a saint compared to a person who takes a newspaper two or three years and when asked to pay for it puts it back in the postoffice and has it marked "refused."

THE SENATE.

It Will Stand 41 Republicans, 40 Democrats and 6 Populists.

Reports received indicate that the next senate will have forty Democrats, forty-one Republicans and six Populists, while the attitude of the successor to Senator Harris of Tennessee is still. In this classification, Senator Stewart and Jones of Nevada, who were elected by the Republicans, but have announced their separation from that party, and Gov. Tillman, who will doubtless be elected by the so-called independent Democrats of the South Carolina legislature, are placed in the Populist column. Tillman (S. C.), will probably vote with the Democrats on organization and Stewart and Jones of Nevada, and Peffer with the Republicans. This would throw the balance of power into the hands of the Populists.

Inflamed Eyes and Running Sores

The Success of Hood's Causes Great Rejoicing—A Perfect Cure.

Miss Cora B. Ebert
Barnesville, Pa.

"C. I. Hood & Co., Lowell, Mass.:
"I feel it a duty to state what Hood's Sarsaparilla has done for me. I was almost blind, being compelled to stay in a darkened room on account of inflammation of the eyes. I also suffered with running sores on my body. I was in terrible condition. My mother tried every thing she knew about and I was attended by two doctors but without helping me. Finally Hood's Sarsaparilla was recommended and I had not taken two bottles before I began to get better. The inflammation left my eyes and the sores healed, and the result was that

and was restored to perfect health. At that time I was only twelve years old; now I am nineteen and I have not since been troubled

WILSON the author of the infamous tariff bill is defeated by 1000 majority. Even Martinsburg, the home of the great tariff reformer, went for his republican opponent Dayton, by 97 majority. This is a national blessing, and a severe rebuke to the party that is responsible for 50 cent wheat and 80 cents for a days work.

GREAT DESTRUCTION IN PRICES IN ALL KINDS OF GENERAL MERCHANDISE.

Joseph Brothers & Co.

Are compelled to enlarge their store room. To do this they have concluded to take their dwelling and convert it all in one

LARGE DEPARTMENT STORE,

which will be done early in the spring. In order to prepare for this event they will be compelled to dispose of their

ENTIRE STOCK AT ONCE.

Clothing, Hats and Caps, Boots and Shoes, Dress Goods, Dry Goods, Notions Carpets and Oil Cloths, anything and everything in this large store will be sold.

AT AND BELOW COST.

Positively the greatest slaughter in prices ever offered the people of Bellefonte or Centre county. Every article will have the cost price and selling price marked on it in plain red letters, so that there will be

NO DECEPTION ABOUT IT.

In a business experience of 30 years this is the first time they have offered goods at and below cost. The goods are so cheap that it surprises everybody. The people have already taken advantage of it and the firm's daily sales are simply enormous.

EVERYBODY COME NOW,

while the stock is yet complete, and buy yourselves rich. Everything must go, regardless of cost. For announcements of special day sales

WATCH THESE COLUMNS,

HARRISON ON THE ELECTION.

The Ex-President Gives Some Good Points on the Result of Tuesday's Balloting.

Indianapolis, Ind., November 7.—In response to a request General Harrison thus expressed himself regarding the election yesterday:

"This is the most extraordinary political revolution the country has ever witnessed. Wherever there was a free ballot the vote of confidence given in 1892 to the democratic party (if one was given) has been recalled and a vote of final repudiation substituted. The incoherence of the democratic party was revealed the moment power was given it to deal with national affairs. The insincerity of its platform makers was expressed when 'be it enacted' took place of 'be it resolved.'

For thirty years party expediency had been substituted by its leaders for party principles, and expediency had as many faces as there were congressional districts. Every eccentric cross current of popular prejudice was followed as if it were the stream. No position was too wild or violent for a democratic mount. Classes were created and inflamed to outbreak and disorder. In one state a debauched currency in another a socialism that was near to anarchy were given a bed. Property, especially mills and factories, were invested and assaulted in one section, and in another trusts were secretly coddled. The old democratic doctrine that favored the levying of customs duties to the list of an adequate was abandoned. A deficiency was to be made good by bond issues or by internal revenue taxes was preferred to the "Incidental Protection" that adequate customs duties would give. The silver question was dealt with in a vacillating and irresponsible manner. Mr. Cleveland described the situation perfectly when he said to Mr. Wilson, 'They (the democracy) are downcast under the assertion that their party fails in their ability to manage the government.' A vast majority of our people believe in a protective tariff—never so many and never so strongly as now. They differ as to rates and schedules but not as to the principle. They believe in reciprocity as the first method of getting foreign markets. They believe in a progressive and American foreign policy. The workingmen voted their prejudices in 1892; this year they voted their patriotism and their love of home. The enormous falling off in the democratic vote is no less emphatic in its meaning than the majorities. The great victory secured by the reformers in New York city ought to have been mentioned in the Thanksgiving proclamation—perhaps it would if it had come earlier. It gives the assurance so much needed that there is an adequate recuperative power in the most ring-ridden committees; that popular government is equal to its severest test—the control of great cities. The lesson is, 'Trust the people.' The duty, 'fill the offices they have confided to us with the highest fidelity and patriotim.' About Indiana? Well, language fails me. I am proud of her."

Reaches All Because it is Free.

Do you want to be strong and healthy? Well, here is the best oppertunity you ever had. A system of free letter correspondence has been established by Dr. Greene, of 35 West 14th St., New York City, the most successful specialist in curnervous and chronic diseases. You don't need to leave your homes to make a long journey or pay any doctor's fee, and both these considerations have prevented thousands from getting well. But just write him a letter stating how you feel, and he will answer it, giving a complete description of your case and telling you just what to do to get well.

He gives most careful attention to every letter, and with his vast experience makes you see at a glance exactly what ails you. And for all this he makes no charge. He makes specialty of treating patients through letter correspondence, and is making wonderful cures. He is the discoveror of that world-renowned medicine, Dr. Greene's Nervura blood and nerve remedy, which is curing more people than any other medicine ever made. The most sensible thing you can do is to write him at once and there is not much doubt but that it will result in your being cured. Remember it costs nothing to find out all about your case.

CZAR NICHOLAS II.

He Issues His First Proclamation to the Russians.

St. Petersburg, November 2.—The Official Messenger this morning publishes the first proclamation of Emperor Nicholas II, of Russia, in which, after, formally communicating to the nation the news of the death of his father, Alexander III, he says:

"May the knowledge console you that our grief is the grief of our entire beloved nation and may the nation not forget that the strength and firmness of holy Russia lies in the unity and unbounded devotion to us.

"In this sad and solemn hour in which we ascend our ancestral throne of the Russian empire and czardom of Poland and the grand duchy of Finland indissolubly linked with it, we, however, remembered the legacy left us by our lamented father, and imbused with it we, in the presence of the Most High, take a sacred vow to make our sole aim the peaceful development of the power and glory of our beloved Russia and the happiness of our faithful subjects."

The manifesto concludes with commanding that the oath of allegiance be taken to him, Emperor Nicholas II, and to his heir apparent, Grand Duke George Alexandrovitch, his brother, who is to be entitled czarewitch until God may bless with a son the union which his majesty is about to enter into with Princess Alix of Hesse-Darmstadt.

The imperial heralds, clad in brilliant uniforms, accompanied by trumpeters, announced at 9 o'clock this morning the death of Emperor Alexander III and the accession to the throne of Nicholas 11. The heralds were escorted by a military guard through the principal streets. The trumpeters would blow three blasts, when the heralds would proclaim the death of the emperor and the official birth of another. This proclamation was made from every place of vantage on the route taken by the heralds.

Train Held Up.

Birmington, Ala., Nov. 1.—Passenger train No. 3 of the Kansas City, Memphis & Birmingham railway was held up at 1 o'clock this morning a few miles east of New Albany, Miss., by three masked men They boarded the train at New Albany, and arriving at the point mentioned they went forward and covered the engineer with pistols and forced him to stop the train. They then made him accompany them back to the express car and call out the messenger. When the messenger appeared the robbers covered him with their weapons and ordered him to give up the valuables in the car. The messenger gave them a package containing about $5 worth of "pinchbeck" jewelry, which was the only thing of any value in his charge. There was no money on board. The robbers took the package and without offering to molest the passengers jumped from the train and disappeared in the woods.

Officers at once entered upon a chase after the robbers and tracked them to the suburbs of New Albany, where all trace of them was lost.

Still Taking Precautions.

Washington, Nov. 2.—Precautions are still being taken at the interior department for the prevention of smallpox. The department will be closed to morrow at noon for another thorough fumigation. Secretary Smith did not attend the cabinet meeting to day, not, as he said, because he was afraid of carrying contagion, but in order that there might not be the slightest uneasiness. Another new case was reported by the health authorities to-day; a colored man in the employ of ex-Surgeon General Moore, of the United States army, at No. 93 Sixteenth street. The authorities have had the case under their care for several days, but not antil to day was it pronounced a genuine case of smallpox.

Bribed With Apples and Peaches.

New York, Nov. 2.—Police Captain Stephenson was, this morning, arraigned before Judge Cowing, in the general sessions, on the two charges of accepting bribes from a commission merchant for permission to violate the city ordinance against obstructions. He entered a plea of not guilty, and was admitted to bail in the sum of $5,000, with leave to demur to the pleading within a week. The specific charges in the indictment are that, on March 15, 1891, Captain Stephenson accepted a barrel of apples from Martin H. Edwards, commission merchant of Greenwich avenue, and on Sept. 15, two baskets of peaches, as a bribe to allow Edwards to violate the corporation ordinance by obstructing the sidewalk with his merchandise.

A Joke that Proved Fatal.

New York, Nov. 2.—George Reim, a bartender, 21 years old, who lived in Brooklyn, committed suicide Thursday night by poisoning himself with carbolic acid. He was deeply attached to his brother John, who lives in Hempstead. Both went out for a drive last Monday, and while crossing a railroad track near Coney Island, their wagon was struck by a train and John badly hurt. On Thursday some one told George that his brother's legs would have to be amputated. This made Reim so unhappy that while he was alone in the saloon, just before midnight, he took the poison. A physician who was called in tried in vain to save his life.

The man who told the suicide that his brother's legs would have to be amputated did it for a joke.

A Narrow Escape.

Mr. and Mrs. Samuel Markle, of Hublersburg, after spending part of last Sunday at the home of Mr. and Mrs. H. Coder, of this place, met with a serious accident shortly after they started for their home. They started about seven o'clock and were driving up Walnut street at a pretty fair gait, and when they got as far up as W. F. Hall's home, they ran into a two horse spring wagon driven by Mr. Al Irvin, the result was that Mr. Markle and wife were thrown out. It was thought at first she was seriously hurt, but we are glad to say that there were no bones broken. She was picked up and taken in to Mr. Hall's, where everything was made comfortable for her. Dr. O. W. McEntire was called in to dress the wounds. The buggy was pretty well smashed. Our friend Mr. Robert Cook gave them a buggy to go home in. Mr. Irvins spring-wagon was but slightly damaged.—*Hornet.*

Opera House To-Night.

Tisso's European Novelties and Living Pictures will be presented at the opera house to-night. During the past weeks the attraction has appeared in the neighboring cities and come highly endorsed by the local managers and Press. All the Living Pictures are refined and free from suggestiveness and among the series are the well known subjects, "Rock of Ages." The Stowaway with musical accompaniments. A high class vaudeville entertainment by special engaged European artists make up the programme.

Haunted.

A haunted house in these practical and unromantic days is something of a rarity but an individual haunted with the idea that his ailment is incurable is a personage frequently met with. Disbelief in the ability of medicine to cure is only a mild form of monomania, although in some cases repeated failures to obtain relief from many different sources would almost seem to justify the doubt. Hostetter's Stomach Bitters has demonstrated its ability to overcome dyspepsia, constipation, liver and kidney trouble, malarial complaints and nervousness, and its accorded achievements in the curative line ought at least to warrant its trial by anyone troubled with either of the above ailments, even although his previous efforts to obtain remedial aid have been fruitless. Used with persistence, the Bitters will conquer the most obstinate cases.

Killed His Father.

Buffalo, N. Y., Nov. 2.—William Gipp, 20 years old, a car inspector for the Lehigh Valley railroad, shot his father and mother at 1.30 this morning. The latter is dead and the former is seriously wounded. The matricide fled and has not yet been captured. The family live at No. 656 Fulton street and consisted of the parents and three sons and a daughter. William was the second son and was employed nights in the yards of the Lehigh Valley road. There is no known motive for the crime. Young Grip then fled.

Ten Years for Abduction.

Philadelphia, Nov. 2.—Charles A. Wilson was to-day sentenced by Judge Reed to ten years imprisonment for the abduction of Mamie Keyes, aged 7 years. Wilson a few weeks ago took the child to New York and kept her there a week. Upon reading in a newspaper the announcement that $500 reward was offered for his capture he returned with the child and placed her on a street car, giving the conductor her parents' address with the request that he leave her off there. Wilson was arrested the same day.

Car Movement for October.

Another evidence of the return of prosperity since the passage of the new tariff bill is seen in the large increase in the freight traffic over the Pennsylvania railroad during October, the movement for that month being one of the largest in the company's history. There were hauled between Harrisburg and Philadelphia 2,097 trains with a total of 65,094 cars, 64,345 of which were loaded and 749 empty. From Philadelphia to Harrisburg the company hauled 960 trains, made up of 11,701 loaded and 51,090 empty cars, a total of 62,791.

Rabbit Season Opens.

Thursday, the 1st of November, the season for shooting rabbits opened. Some farmers say that they are very scarce while others say they they are slightly more plentiful than last season. A determined effort will be made by game protection associations and officers to have any unlawful slaughter of the game stopped. The law governing the shooting of game distinctly declares that there shall be no shooting, hunting or fishing on Sunday, under penalty of $25.

An Aged Man's Death.

William Tate died at his home in Howard, Centre county, Thursday, aged 74 years. Mr. Tate was for many years a resident of Porter township, this county, and had many acquaintances in this city. His funeral accurred this forenoon at 10 o'clock. Services were held at the house, after which the remains were taken to St. Paul's cemetery, Nittany Valley, for interment.

A Full Holiday.

November 6, election day, will be a holiday. Bill 63, approved May 23, 1893, made the November election of 1893 a half holiday Bill 138, approved May 31, 1893, five days later, made November election day a full holiday, and February election day a half holiday. Under this act November 6 will be a full holiday.

BY 200,000.

This is the Least Majority That General Hastings Will Have.

Philadelphia, November 2—Republican State Chairman B. F. Gilkeson, when asked to-day what the republican prospects of success in the state election are, replied.

"I believe that our majority for the state ticket will reach 200,000 at least. Philadelphia and Allegheny counties will show an unprecedented majority this fall. In the rest of the state the republican organization is in the best condition it has been for many years, and with but few exceptions the vote will be solidly cast for the local candidates as well as for the state ticket, and where there is a fight on the local ticket the result will be beneficial to the state ticket, since it will bring to the polls every republican vote in the district. The only thing we have to fear at all as affecting our majority is a possible indifference upon the part of republican voters as to the necessity of going to the polls next Tuesday. I, however, do not have much fear of this, since the reports as they come to me from our county chairman, as well as from other sources, indicate that the people are all anxious to vote and that there will be few, if any, stay-at-homes this election. I believe that we will carry every congressional district with the exception of three, and in these three we have a fighting chance. The indications are that the state senate and house of representatives will be more nearly unanimous than ever in the history of Pennsylvania."

As regularly each year as cool weather sets in numerous complaints are made by train riders about the overheated condition of the cars in which they are compelled to ride, and this autumn is no exception to the rule. That there is just cause for complaint in this particular there is no question. Long before frost regularly sets in, the furnaces, stoves and steam pipes are made to give out heat enough to warm the cars in zero weather, even on days when out-doors the temperature is sufficiently moderate for one to be without an overcoat with comfort and safety to health. Serious consequences may result from this lack of judgment on the part of the employes of the railroad companies. To escape the stifling heat a passenger may be compelled to open the window opposite the seat he occupies, and at least a severe cold is almost the inevitable consequence to the person sitting immediately behind, and, perhaps, to the person opening the window himself. Pneumonia and kindred diseases, catarrh and other grave disorders, are often traced directly to this cause. There is no excuse for this overheating. Every car is provided with an abundance of ventilators and appliances to prevent an excess of temperature, and to keep up a supply of pure air under all autumn and winter conditions, even when from various reasons it is impossible to regulate the force of the fires or the flow of steam. The employes of the companies should be instructed that it is one of their important duties to look after the comfort and health of the passengers by maintaining an even temperature in the cars by a judicious use of the appliances provided.

Rev. Garner and His New Church.

All of our Readers well remember Rev. Charles Garner, (colored) formerly of this place, but now of Tyrone, and the following from the Herald will be read with interest:

Rev. Charles Garner was the recipient on Tuesday evening of an acceptable donation in the way of provisions of various kinds. A number of his congregation and others dropped in on the reverend gentleman very suddenly and made it a complete surprise to him. He appreciates their thoughtfulness very much and while in a neat little speech thanked them at the time he wishes in this public way to acknowledge his gratefulness for the donation.

The new church building of the A. M. E. congregation on Fourteenth street is moving along toward completion, and when done will be a very comfortable and neat little church. Mr. Garner, who by the way is a very handy all around man, is now plastering the basement of the church with his own hands while Gussie Plowden mixes and delivers the mortar to him, and the work is being done in a very creditable manner. Pastor Garner is also quite handy with the carpenter's tools, and much work in that line has been done with his own hands in and about the new church building. He displayed a good bit of grit when he undertook to erect the building, and has kept up courage and pushed the work right along from the beginning. He will get through, of course he will, and presently the congregation will have a well-finished and convenient little house of worship completed and paid for.

Why do

500,000

People

take Bovinine every year?

Because in disease ordinary foods are not assimilated, and thousands would starve in the midst of plenty for the want of a suitable food. Because

BOVININE

The Original Raw Food

is the only raw meat food condensed by a cold process by which all the nutritive elements of selected beef are preserved in exceedingly palatable form and ready for immediate use, and:—

Because it is prescribed and recommended by more physicians than any other food known to the profession.

McKinley in Erie.

Erie, Nov. 2.—After the midnight reception that followed at Sandusky, the McKinley special made a flying trip to Erie, 150 miles distant, where it was side tracked until daylight. At 6 o'clock when it was brought into the Union depot, the whistles of scores of locomotives and manufactories and other industrial establishments began to set up an indescribable din, which continued until he reached the market house, where 10,000 people were awaiting him.

The Governor's visit was in the especial interest of Matthew Griswold, the nominee against "Honest Joe" Sibley. Governor McKinley spoke for an hour on the tariff issue, and while refraining from referring to Mr. Sibley by name, took occasion to say:

"The Republican party still stands for the great principle of protection to American industries."

At the conclusion of his address, 5,000 people accompanied the Governor to the train and besieged it until his departure.

Hastings Nursing His Throat.

Philadelphia, Nov. 2.—General D. H. Hastings did not fulfill any of his engagements to speak to-day or this evening at Republican meetings. His cold is still troubling him and he is nursing his throat so that he will be able to meet Mr. Singerly, the Democratic gubernatorial candidate, in joint debate to-morrow night at Norristown. General Hastings will not speak at Pottstown, as he expected to do to-morrow, but will remain in the city until he goes to Norristown in the evening.

A Shocking Fate.

Birmingham, Ala., Nov. 1.—Mrs. Shepard, the aged widow of the late probate judge, Robert Shepard of Walker county, residing ten miles from Jasper, went out to the barn early this morning to feed her chickens. Failing to return, her daughter began searching for her.

Near the barn was found the dead body of the woman, and three large hogs were eating off her head. It is supposed she was attacked by the hogs, knocked down, and as she was quite feeble was soon killed. The hogs were very vicious, and when the daughter tried to drive them away she was pursued by the beasts and had to flee and summon assistance.

York Convention Echo Meeting.

The Presbyterian Christian Endeavor Society will hold a special York Convention Echo meeting in the chapel next Monday evening, Nov 5, at eight o'clock, to which all the yonng people of the town are invited. There will be a special program of music and addresses by C. A. Bowman and J. E. Dayton, of Williamsport, and Gilbert A. Beaver, of this place, as well as a number of delegates who will be present from various parts of Centre county.

Lots of Fun.

Mush and milk surprise parties are popular a hundred miles to the southward. Those who make the party swoop down upon the subject of the surprise with a box of cornmeal and a jug of molases. The mush is set to boil, the molasses is turned into taffy and abundantly pulled, cakes are baked, apples pared, and the mush is eaten along with fresh milk and rich cream The mush and milk surprise furnishes a maximum of fun for a minimum of expenditure.

Terrific Wind Storm.

Willis, Tex., Nov. 2.—A terrific wind storm struck this place last night. Three churches were wrecked, residences and store houses were damaged to a greater or less degree and outhouses and fences were entirely demolished. Many houses in the country were destroyed and pear and peach orchards laid waste. No lives are reported lost so far, but full returns are not yet in. The town of Montgomery is reported as having suffered severely.

"A HANDFUL OF DIRT MAY BE A HOUSEFUL OF SHAME." CLEAN HOUSE WITH

SAPOLIO

Caused by a Lighted Pipe.

Omaha, Neb., Nov. 2.—A fire this morning, with a loss of $300,000 fully covered by insurance, wiped out the beef killing and several other departments of the Hammond Packing company's plant at South Omaha, and resulted in the death of two firemen, John Steele and Hank Peters. The fire originated in the cloak room of the beef killing department and is supposed to have been caused by a lighted tobacco pipe in the pocket of some one's overcoat.

Everything was taken out of the office. All the goods that could be handled were rolled away from the fire. Meantime the west wall fell, carrying down Fireman Steele. The northwest wall of the building then fell and caught Fireman Peters. He was almost dead when taken out. Matt Myers, another fireman, was badly injured by the falling of the west wall. The hog killing department and surrounding structures were saved after a hard fight. Everything in the beef department was entirely consumed.

Manager Noyes says the loss is from $400,000 to $500,000 covered by insurance of from $80,000 to $100,000, and also that he had just received orders from Chicago to rebuild at once.

—A very pretty wedding took place on Wednesday evening at the residence of Rev. M. O. Noll, who officiated, the contracting parties being Miss Mary M., the accomplished daughter of Mr. and Mrs. Henry Harmon, of this place, and Mr. F. H. Fritts, of Virginia. We extend congratulations.

VIGOROUS HEALTH FOR MEN

Prof. HARRIS' SOLUBLE MEDICATED Pastille

THE PASTILLE CURE TRADE MARK FOR NERVOUS DEBILITY

Has been put up in a proprietary form since 1878, and has been used for years prior to that time in private practice. It is no untried nostrum, of doubtful reputation, but a genuine specific for a very prevalent disease. Thousands of men, of all ages, have at some time in life brought on nervous debility and exhaustion, with organic weakness, by over brain work, excesses, too frequent indulgence or indiscretion and vicious habits, and it is to these that we offer a remedy that will, by its direct action upon the seat of the disease, stop the drain and restore the patient to vigorous health and strength.

Our method of introducing Prof. Harris' Pastille treatment is one which commends itself to all sensible persons—for the reason that we supply it upon their judgment of its value. We ask of our patrons nothing in the way of expense beyond a postal card and a two cent postage stamp. The postal card to be used in sending us their full address and the postage stamp for the letter returning the statement of their case for which we supply them with a question blank, to be filled out, and an envelope addressed to ourselves for use in returning it when filled.

FREE TRIAL PACKAGE. When we receive the statement on blank we prepare eight days' treatment and forward it by mail and prepay postage thereon—and along with the eight days' treatment we send full directions for using. The treatment in no way interferes with a person's attention to business, and causes no pain or inconvenience in any way.

We are so positive that it will give perfect satisfaction that we leave the matter of sending orders entirely with those using the free trial treatment. Having satisfied those sending for trial packages of our ability to benefit their sexual condition we feel that they are more largely interested than ourselves in continuing the use of the Pastilles. Even then we do not attempt to rob them by demanding high prices. On the contrary, we make the prices as low as possible, and the same to all. They are as follows: $3 for one month; $5 for two months; $7 for three months.

These prices secure the delivery of the Pastilles by mail. If desired by express we leave the patient to pay the charges. For over ten years we have operated our business upon this plan with satisfactory results.

We ask all persons needing treatment for any of the secret ills which come to mankind through a violation of nature's laws to send us their address on postal card or by letter and allow us to convince them that PROF. HARRIS' SOLUBLE MEDICATED PASTILLES have merit and are what they need.

THREE MASKED MEN.

Hold Up a Passenger Train in the Wilds of Mississippi.

Birmingham, Ala., November 1.—Passenger train No. 3, of the Kansas City-Memphis and Birmingham railroad, was held up at 1 o'clock this morning a few miles east of New Albany, Miss., by a gang of threemasked men and the express car looted of its contents. Conductor W. B. Leonard, who was incharge of the train got into Birmingham at 6 o'clock this morning, and from him the facts were learned He said :

"My train pulled out of New Albany about I o'clock this morning. Shortly after getting under full headway the train began to slack up and was soon at a stand still. As I afterward discovered three masked men had boarded the tender of the engine at New Albany and, covering Engineer Campbell and Fireman Alexander with pistols, compelled them to stop at a designated point in the woods a few miles east of New Albany. When the train stopped I was in the baggage car.

"I went to the side door and opened it only to be greeted with several pistol shots from one of the robbers. I shoved the door shut, but turning around saw two of the robbers already in the baggage car with pistols covering me. The engineer and fireman were made to dismount and an unsuccessful attempt was made to uncouple the engine. Express Messenger Jeanette's car was forced open, the robbers covering me with pistols all the time and we were forced to give up the content of the safe. Putting the booty into a bag the robbers backed offinto the woods with their pistols still pointed at us and disappeared in the darkness. We did not see their faces at any time."

Officers of the Southern Express company give it out that only a lot of cheap jewelry and vouchers constituted the robber's booty. The general belief is that the robbers were amateurs, although they did things up in shape.

Election Days as Holidays.

A correspondent, E. F. N., writes to inquire if the first Tuesday after the first Monday of November, commonly known as Election Day, is a full holiday or only a half holiday. We are not surprised at this inquiry, for the two acts passed by the Legislature of 1893 on this subject seem to make it both, and the ordinary voter is justified in confessing a sense of doubt about the matter.

No. 63 of the session laws of 1893, approved May 23, provided that the first Tuesday after the first Monday of November and the third Tuesday of February shall be designated as legal half holidays from 12 o'clock noon of each day, and contained the usual specifications about the presentation for acceptance or payment of notes, checks, drafts and other bank paper on these days. But act No. 138 of the laws of the same session, which is a law intended to fix all the legal holidays, and which was approved May 31, or eight days later, includes the November election day, along with Christmas, New Year's Day, the Fourth of July and others as a full holiday, and makes no mention of the third Tuesday of February at all.

This general holiday law contains no repealing clause, but having been approved eight days after the act designating both election days as half holidays, it must be construed to supercede the first act so far as the first Tuesday after the first Monday of November is concerned, and to leave the remainder of the act in force. In other words, the first Tuesday after the first Monday of November is constituted a full holiday, while the third Tuesday of February still remains a half holiday. Perhaps hypercritical lawyers can put some other canstruction upon these two holiday laws, but to people of ordinary comprehension this seems to be what they enact so far as the fall and spring election days are concerned.

The revelations of police corruption under Tammany Hall which are daily brought to light by the Lexow Committee in New York are a national disgrace. Commissioner Sheehan, who left Buffalo short in his accounts as City Controller, the amount being made good by his bondsmen, and who was appointed by request of his brother a Tammany Police Commissioner in New York, dare not answer the questions asked of him by the committee. Its only recourse is to certify him to the District Attorney for indictment, but the District Attorney is President Cleveland's "dear personal friend," John R. Fellows, who is about the worst of the Tammany gang; hence the Commissioner is safe. Nothing except the defeat of the corrupt and debased Hill-Tammany crowd at the polls will purge New York of its municipal rottenness.

The Troops at Their Posts.

Since the death of the czar became imminent not a uniform has been seen in the theatres in St. Petersburg or of other large cities of Russia. One reason of that is the reepect which the army wants to show to the suffering sovereign, but a more important one is the fear of an uprising as soon as the death of the czar is announced. The atrocious circular sent out by refugees in Switzerland shows that the revolutionists are ready to strike when the moment for it arrives, and that they expect their opportunity to come through a dispute over the succession to the throne. There has been this long time a steady assurance that the only discontent in the empire is that of a few fanatics, but it has never been accepted. It is impossible that, with new ideas pouring in on them, there should not be a big body of discontented among the Russians. It is impossible to doubt that an uprising has been feared, and that this fear explains why the soldiers have been kept close to their posts.

Tenement House Fires.

Tuesday's tenement house fire in New York, with its list of seven victims stifled to death by smoke and the eighth who jumped to her death from her burning apartment, shows that the unexpected danger from fire is not confined to balloon frames and other forms of the wooden tinder-box structure. This was a five-story brick flat building with a legal fire-escape attachment, but neither brick walls nor fire escapes served to save eight of the forty human beings who were sleeping in fancied security when the fatal flames enveloped the inner stairway and filled the apartments with stifling smoke.

Of the eight victims of this tenement house fire only one, the woman who leaped to her death, was seriously burned. The other seven were stifled by the smoke which filled their sleeping rooms, in which no mark of fire appeared. The flames were subdued before reaching the rooms in which the smothered victims were found, but the smoke proved as effective an agent of death, if less painful, than the flames which destroyed the stairway and ravaged the lower rooms of the tenement. The lesson of this fire is only corroborative of that of others which have preceded it in showing that the tenement house system of New York and other large cities is a standing menace to the lives of all who live in tenements of the flat order, notwithstanding the laws compelling the use of fire-escapes and other protective appliances.

The Work of the States.

Secretary Gresham lodged a protest with the German embassador against the exclusion by Germany of American live cattle and dressed beef. But the officials of the Foreign Office in Berlin say that the imperial government has nothing to dowith the matter, it not having decreed the exclusion. That was done by the States, and over them in this particular it has no authority. They have excluded the cattle and meat under their police power, just as Pennsylvania has excluded the manufacture of oleomargarine.

The alleged reason for the exclusion is that pluro-pneumonia has been discovered among the imported cattle. That is more than likely an excuse for shutting out competition. Whether it is or not, the exclusion party will soon be abandoned. The advance in the price of meat consequent upon the same thing in the Low Countries compelled the abandonment of it there, and w[illegible] Germany in due time. Meanwhile it is a bad thing for the American farmer. It will be used as an argument for beating down still lower prices which are already more than low enough.

The Wreck Near Peale.

The men killed in the wreck near Peale yesterday are now supposed to have been professional burglars. Their names nor place of residence could not be learned. One man had his head cut off and another had a leg severed. They will probably be buried in the township in which the wreck occurred. The name of the injured man is Lewis E. Trump. He resides with his mother in Williamsport. He will likely recover. The wreck was caused by the break rigging dropping from the bottom of one of the cars and causing seventeen of the cars to pile up.

Beware of Ointments for Catarrh that Contain Mercury,

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

BUSINESS OUTLOOK.

What R. G. Dun & Co.'s Weekly Review Says of It.

New York, November 2.—R. G. Dun & Co.'s weekly review of trade to-morrow will say :

The last week of October, with an exciting election near, cannot indicate much of the true condition of business. In some trades the season is too far advanced for great activity, and in others the supposed effects of the voting hinder operations. But it is satisfactory that the volume of production is well maintained, and in one or two branches increased, that no monetary difficulties disturb, that breadstuffs are a little higher, and that no material decline appears during the week in manufactured products. The fact that any decline appears, with slackening in demand for some products, may perhaps be attributed to uncertainties, mainly political in origin, while every increase in the working force helps to make a basis for more business hereafter. At present the volume of business transacted is, on the whole, smaller than last year, and much smaller than in 1892, though a presidential election was then close at hand. Comparison of railroad earnings is less valuable, because passenger traffic a year ago was extraordinary large owing to the World's Fair, but while the freight movement outside of eastbound shows some gain, the east-bound movement from Chicago is a quarter less than a year ago. Earnings for the latest week show a decrease of 4.6 per cent. and for the month of October thus far 4.3 per cent. compared with last year, and 11.3 per cent. compared with 1892. The average price of railroad stocks declined seventy-five cents per share for the week, while the average of trust stocks declined seventy-nine cents.

With the iron industry the chief activity is in structural works, bridges and other plates, while the demand for sheets is somewhat diminished. Bar and wire show no improvement and nails are weaker. The average of quotations for various kinds of iron and steel is 3 per cent lower than in July and 6.5 per cent. higher than in July last year. The failures continne small, and for four weeks ending October 25 liabilities were $8,206,000. The failures during the week have beed 249 in the United States against 358 last year, and 50 in Canada against 23 last year.

THE CONSISTENCY OF PROTECTION.

The point is often made that no protection should be given to the sugar industry by the payment of a bounty, because no bounty is given to the farmer who grows corn or wheat. It is forgotten that corn, wheat and cotton rank on the same footing as the sugar cane and not with the sugar product, which is quite as much a manufactured product as cotton or woolen goods which are protected under the Republican policy, which, moreover, aims to protect the wheat, corn or sugar cane of the farmer just as much as it does the manufactured product of the manufacturer. It has protected the rice of the south and the barley of the north, but the Gorman tariff bill, while continuing protection to the rice of the south has diminished the protection to the barley of the north, so much so that imports of Russian barley are shortly expected at New York. The next southern industry that will probably need protection will be that of raw cotton, in view of the large quanity of that commodity that has been grown in other parts of the world, more of which is each year finding its way into our markets. When the south finds its cotton growing industry needs protection it will also find that the Republican party will be glad and willing to vote for its protection.

BEFORE I could get relief from a most horrible blood disease, I had spent hundreds of dollars TRYING various remedies and physicians, none of which did me any good. My finger nails came off, and my hair came out, leaving me perfectly bald. I then went to

HOT SPRINGS

Hoping to be cured by this celebrated treatment, but very soon became disgusted, and decided to TRY S.S.S. The effect was truly wonderful. I commenced to recover after taking the first bottle, and by the time I had taken twelve bottles I was entirely cured—cured by S. S. S. when the world-renowned Hot Springs had failed.

Local Department.

—About three to four inches of snow fell on Wednesday night, but it was chilly only to one-half the recent candidates for political honors.

—Don't forget the lecture on Byron in the Presbyterian chapel on Friday evening. Prof. Axson is a good talker and well worth going to hear.

—Don't forget the Catholic fair and festival in the new Brockerhoff building, "Temple Court" on Allegheny street, will continue all this week.

—And the big majorities still continue to grow, and the republicans are wondering where it will end, while the democrats are wondering, "where are we at?"

—Since the election Gen. Hastings has been kept very busy reading and answering telegrams of congratulation, several hundred of which have been received.

—James R. Hughes, the special correspondent for the Philadelphia Press, wishes it understood that he is not responsible for any articles in the Press not marked "special."

—The State College foot ball team is claiming the championship of the State, owing to the refusal of the U. of P. and Lehigh teams to play them. Their claim seems reasonable.

—On Tuesday fifty head of blooded milk cows were dehorned at the State College dairy farm for the purpose of testing if it will make any appreciable difference in the milking qualities.

—Now that the election is over, everybody in Bellefonte should make preparation to attend the game of foot ball on the glass works meadow Saturday afternoon between the Prep team, of State College, and the Academy boys of this place.

LYON & CO.

—In his seven weeks' campaign trip General Hastings went back and forth across the State some four times, traveling nearly five thousand miles, visiting fifty-two out of the sixty-seven counties and making one hundred and twenty-nine speeches.

—The Catholic fair now in existence in the new Brockerhoff building, is attracting large crowds every evening. They have a large variety of articles to dispose of and thus far have been well patronized. If you have not already been there you should go this evening.

—People nowadays are to busy for store hunting; they barely have time to think of their needs, and have to trust to the newspaper to jog their memories. In short conditions have changed—the stores must hunt the people, and still hunting does not catch them; there must be music in the air. Advertising does it.

—The Presbyterian chapel was filled Monday night on the occasion of the York Convention echo meeting which was held there. Good music contributed largely to success of the meeting while the addresses of Messrs. Dayton and Bowman, of Williamsport, and Gilbert Beaver were very pithy and interesting. The program from start to finish was a good one.

—No less than fifty-six companies engaged in the patent medicine business at South Bend, Ind., have been declared fraudulent by the postoffice department. This gives the public some idea of the enormous proportions to which this business has grown and also the close watch kept up by the department on the character of the matter passing through the mails.

—Manager Bloom made no mistake when he gave a date to the "Jane" comedy company that played in the opera house Monday night, if we may judge from the general expression of opinion. Competent critics who saw the performance pronounce it one of the cleanest and prettiest and funniest performances ever given in the opera house. The audience was large and fashionable.—Philipsburg *Ledger*.

—The weather permitting there will be a game of foot ball on the glass works meadow grounds, Saturday afternoon at 2.30 o'clock, between the Prep: team of the State College, and the Academy team of this place. As this may be the only game in Bellefonte this season everybody should be sure to attend. The teams are both strong, will be well-matched, and the game promises to be a good one.

—After two postponements, the University Extension lecture on Byron, by Prof. Stockton Axson, late of the University of Vermont, will certainly be given in the Presbyterian chapel to-morrow (Friday) evening, at 8 o'clock. It is hardly necessary to say anything eulogistic of Prof. Axson, as his introductory lecture in the court house a few weeks ago gave the people of this town a better knowledge of his ability than columns printed by us could do. But we extend a cordial invitation to all to attend.

THE BOROUGH FATHERS.

A Long Session, Considerable Business and Big Bills.

Council convened on Monday evening at 7.30 o'clock with Messrs Miller, Gerberich, Williams, Hilibish, Beaver, Brockerhoff, Bush and Garman present. Clerk Isaac Mitchell read the minutes of the previous meeting which were approved as read.

Mr. Lyman Korman appeared before council to know whether he had the right to erect a booth on the streets, when granted privilege by council to do so.

The butchers of Bellefonte en masse appeared before council to again enter protest against butchers being allowed to come into Bellefonte and peddle their meat from house to house. They think, as taxpayers in the borough, they should be protected. They were all given a chance to present their side of the question.

A communication was received from overseer of the poor, James I, McClure, notifying council not to pay the amount of the Solt verdict against the borough to said defendant, as he was a borough charge and under a late act the amount would go into the poor fund.

A numerously signed petition was presented for a crossing on Water street from the corner of Bush Arcade to the High street bridge across Spring creek.

A written complaint was read regarding the bad condition of Pike alley, occasioned by the continual washing of buggies by the liverymen holding forth there.

The Street committee reported numerous crossings put down and various other repairs and improvements made. The man who had agreed to crush stone at the rate of 20 cents per cubic yard, crushed 70 yards and then threw up the job, because the price was too low. The grading on Curtin street is almost completed from Spring street to Allegheny. The Central Railroad company of Pennslyvania will furnish free enough crushed stone to cover Lamb street from the railroad to the east side of Spring street. A proposition was made by F. W. Crider and A. Allison to bear one-third of the expense each to extend the concrete crossing in Pike alley back to the rear of Beaver & Dale's office.

The Water committee reported all the 12 inch pipe received and that the laying of same will be completed about Friday or Saturday. The pipe on Curtin street was found to be in a bad condition and of various sizes; the same was taken up and a two inch galvanized pipe put down.

The Fire and Police committee reported two nozzles ordered for the Undine Hose company.

The Market committee reported $5.10 market fees collected during the past three weeks.

The Nuisance committee reported a nuisance in the shape of a slaughter house on Pine street, near the old Mallory blacksmith shop.

The Finance committee had no financial report to make.

Borough Solicitor Clement Dale, Esq., reported in the Solt case that the Court had granted a rule of Mandamues to show cause why the damages in said case should not be paid over to J. C. Meyer and Chas. P. Hewes as assignees of Mr. Solt. Mr. Dale answered that the money was claimed by the overseer of the poor and asked that the rule be dismissed. As there has been no hearing yet the money cannot be paid to either partry. Regarding the costs in the case of Robert McCalmont vs the borough of Bellefonte, the decree of the court did not dispose of the costs, so that council is not obliged to pay the same.

Regarding the request of Mr. Korman to erect a booth over Spring creek at the corner of High street bridge, there being an ordinance against the erecting of booth's on the streets, the matter was held over for further consideration.

Regarding the request of the butchers of Bellefonte that the present ordinance against peddling meat on the streets of the town be enforced, or else the traveling butchers be charged a license of $15 per month, was discussed. It finally ended up with the matter being referred to the Market committee and borough solicitor for investigation and report at the next meeting.

Regarding the crossing on Water street the committee was instructed to have the same put down. The complaint about the condition of Pike alley was refeared to the Street committee for action.

The matter of paving Pike alley from Allegheny street to the rear of Beaver & Dale's office, was on motion of Mr. Bush, laid on the table.

The business being completed the following bills were approved and council adjourned:

Will Move to Bush Arcade.

On or about November 17th W. T. Meyer will move his Cash Bazar from its present location on Spring street to the vacant room in the Bush Arcade between the stationery store and Eureka Grocery. It is the intention of Mr. Meyer after the holidays to introduce a full line of Dry Goods and gents' furnishings. To make preparation for this event he is now holding an introductory sale, and is selling everything at a bargain. See his advertisement elsewhere.

Mill Hall's Blaze.

Sunday morning about 5 o'clock one of the men employed at the Mill Hall brick works discovered flames issuing from the factory building just behind the boilers. The alarm was given and soon nearly all of the citizens of the borough were at the scene. They were powerless, however, to extinguish the flames as there was no fire apparatus. The fittings to the boiler were also burned, but the boiler itself was not damaged. It is also thought that some of the machinery and the engine can be used again.

The works employ about thirty-five men, all of whom will be thrown out of employment for the present, which loss will be felt very keenly by the Mill Hall people. The loss to the company is estimated at from $18,000 to $20,000. There is an insurance of nearly $8,000 on the plant. Whether or not the factory will be rebuilt will be decided as soon as the directors of the company meet.

Pennsylvania's Name.

A writer in Modern Society says: "I have been perusing a wonderfully interesting interview with Raymond Blathwayt, himself the prince of interviewers, which appears in the Ludgate Monthly for October, and I note that he casually mentions an ancestor of his, one William Blathwayt, who was clerk to the council in the reign of Charles II; but he does not relate a most interesting anecdote of that worthy gentleman, with which I happen to be acquainted. As he may not have possibly known it, I place it here very much at his service. When William Penn was founding his colony in America he asked the king if he might call it after his majority. William Blathwayt, who was present, a strong Tory, and a high churchman, objected, and said, on a nod from his majesty; 'Not so; let the Quaker call it after himself.' Hence Pennsylvania. I don't suppose many Americans know this little bit of genuine history, which clearly shows how the nomenclature arose."

Men's Heavy Undershirts and Drawers reduced from 50c to 35c.

Men's Heavy Goods Overcoats, reduced from $4.50 & $5.00 to $2.50.

Men's Fine Dress Overcoats, reduced from $12 00, $10 00, $8 00, $7 00, to $8 00, $6 00, $5 00, $4 75 & $3 00.

A True Actor.

A true actor will not mar the effect of a scene under any circumstances by going outside the usual lines of the play. Thursday night at the Grand, Mr. Burns as the "Major," in accordance with his part, took a cigar from his pocket to smoke during his conversation with Mr. Norcross as "Percival Perrine's The actor fumbled in his pockets but could find no match, and finally he deliberately walked to the wings and requested a stage hand to supply him with the necessary article. Mr. Norcross, who was equal to the emergency, took a match from his own pocket and said in a natural manner, "have some fire old boy," Mr. Burns turned about from his position near the wings and forfeited his one chance for smoothing over the little roughness by replying; "No thanks; you're too late I've got one."

Will appear in Bellefonte Friday night in "Jane."

—The Pittsburg Times has revised the itinerary of the tour which it will give to the five ministers of the Gospel who receive the greatest number of votes in the six months ending Dec. 31, and has added to the points of interest which it was originally intended to visit the Bermuda islands the Azores, Grenada and the Alhambra, Algiers, Malta, Constantinople, Athens and Rome.

DEATH OF EVAN M. BLANCHARD.

Expires on Wednesday Evening at Half-past Nine O'clock.

Another of Bellefonte's prominent citizens has bid farewell to life and passed over the river of Death into the Great Beyond. Evan M. Blanchard, Esq., who for several years has been sadly afflicted, died at his home on Linn street at about half-past nine o'clock Wednesday night, of paresis.

Evan M. Blanchard was the second and youngest son of "Honest" John Blanchard, one of the brighest and best lawyers at the Centre county bar and who for a number of years represented this district in Congress, and was born in this place about 60 years ago. After graduating he studied law and in 1859 was admitted to the bar of Centre county and at once entered into partnership with his brother, Edmund. Possessed of considerable logical ability, he was soon recognized as a man whose counsel could be depended on and the result was he soon acquired a large and remunerative practice, which he held up to the date of his illness. For a number of years he was attorney for the Pennsylvania railroad company in this place. The death of Mr. Blanchard removes another of our most esteemed residents.

He is survived by his wife, Eliza F., John, an attorney at the Centre county bar, Elizabeth, Mary A., and Edmund, who is attending college at Haverford. The funeral will take place Saturday afternoon at 3 o'clock.

Rumored New Railroad Line.

Another railroad from Philipsburg to Williamsport is talked of by soft coal operators. As now contemplated it will start at a point near Philipsburg and run from thence through the coal fields of Centre county to Bellefonte. From Bellefonte to Mill Hall the new company will use the tracks of the Central Railroad of Pennsylvania at the start, and from Mill Hall a new line will be built to Williamsport. When completed the new line will be used almost exclusively as a coal road, but when the company secures an entire independent line from Philipsburg to Williamsport the company will cater to passenger traffic. The line will have no connection with the Beech Creek except to carry coal from off that road.

Two Deaths.

Although for the past few days it has been fully expected, yet every resident of Bellefonte was pained to learn this morning of the death of Col. D. K. Tate, which occurred at his home on Penn street, at 4.45 o'clock on Sunday evening. Col. Tate was one of the best known men of Bellefonte. He was aged about 67 years. A wife, one son, Benton, and two daughters, Edith and Mary, are left to mourn their loss. The funeral will occur on Wednesday afternoon at 2 o'clock.

SAMUEL ISHLER.

A telephone disyatch from Boalsburg announced the death, at his home near there, of Mr. Samuel Ishler, brother of ex-sheriff William A. Ishler, which occurred Sunday night after a brief illness. Mr. Ishler is survived by a wife and a number of children.

Dialect Readings.

On Saturday evening, October 10th, Mrs. J. B. Ewing will give her dialect readings in the parlors of the W. C. T. U., Crider's Exchange. Mrs. Ewing is well known in Bellefonte and the rooms should be crowded to hear her. The following letter will show how she is endorsed by the clergy everywhere:

PASTOR'S STUDY,
SECOND PRESBYTERIAN CHURCH,
ALTOONA, PENNA.

It would be a critical audience, indeed, that could not be charmed by the skillful and engaging manner of Mrs. J. B. Ewing in her dialect renderings. She possesses rare ability in this particular, and I cordially recommend her to brother ministers and friends. REV. H. H. STILES.

November 5th, 1894.

—Hon. Fred Douglass, of Washington, addressed an audience in Harrisburg on Wednesday evening. Mayor Eby presided at the meeting. The speaker was met at the depot with a carriage and band and escorted up Market street to the hotel. He said the reception on this occasion was quite different from that received when there forty years ago. "A prominent citizen headed a mob who dragged him from the train and when he and William Lyod Garrison attempted to address an audience the mob broke up their meeting and drove them from the platform." He says he is not in politics now except to vote the Republican ticket on election day.

Will Remain a Mystery.

A Hungarian miner named Andrew Burie, an employe of Jackman & Ellisworth's Colorado No. 3 mine, was found lying on the railroad track under Hoyt & Ashman's dump on Tuesday evening with his skull crushed. He was taken to the hospital, but never regained consciousness and died on Wednesday morning. Whether he fell off the dump and killed himself or whether he was murdered will never be known. If he was murdered it was not for the purpose of robbery as he had drawn $7 pay and paid his boarding house keeper $5 and the balance was in his pocket.

Eat Plenty of Apples.

It is said that a ripe, raw apple is one of the easiest foods for the stomach to deal with, the whole process of digestion only consuming eighty-five minutes. The malic acid of apples cooked or raw helps to digest meat and to stimulate the liver and neutralize those noxious matters which unless eliminated produce skin eruptions. The salts and wine sweeten the stomach, the phosphorous is a nerve builder.

Mrs. Dr. Bush, of this place, departed this morning for Gettysburg.

Miss Miller, of Tyrone, is a guest of Miss Emily Harris, on Linn street.

Miss Agnes Haley, of Snow Shoe, spent Sunday with friends in Bellefonte.

The Misses Sommerville, of Winburne, are visiting at Mrs. James Potters.

Miss Lulu Hoy, of this place, spent Sunday in Unionville, the guest of Miss Griest, of that place.

Mr. Isaac Miller, of Philadelphia, is visiting his parents, Mr. and Mrs. Isaac Miller of this place.

Dr. T. R. Hayes and wife are now sojourning in the salubrious climate of the new state of Arizona.

Miss Hannah Hamilton, after a three months visit in Tyrone, returned to her home in this place on Saturday.

John Bower is at home from Franklin and Marshal college spending a few days with his parents on Linn street.

Miss Kate Vallance departed this morning for Pittsburg where she goes to enter a hospital for the cure of an affection of the limb.

Dr. R. G. H. Hayes departed this morning for Philadelphia where he will be engaged doing hospital work for the next two weeks.

Miss Olive Mitchell returned on Tuesday evening from a two week's visit to the western part of the state, and was accompained home by her cousin, Miss Josie Baldridge, of Braddock's Fields, who will spend a week or so in this place.

A Smart Dog.

Mrs. Thomas J. Lee owns a beautiful black Gordon setter which is possessed of almost human intelligence, and apparently understands everything that is said to him. Among his other smart performances is ringing the bell to wake Mr. and Mrs. Lee in the morning and to summon them to their meals. He seems to know when it is time to ring the bell, and without call appears promptly before the servant girl, sitting up on his haunches and watching her with an appealing inquiry in his beautiful eyes. The girl puts the handle of the bell in his mouth and off he dashes up stairs and rings the bell furiously until his mistress says "All right, Don," when he immediately takes the bell back to the dining room. A singular and most commendable trait is his absolute silence. He has never been known to utter a sound of any sort. He was a wedding present to Mrs. Lee, and was born on her wedding day, and it is safe to say that of all the beautiful gifts she received there is none she values and loves more than her beautiful dog.—Philipsburg Ledger.

Committed Suicide.

Samuel Williams, a young man employed in the drug store of S. Smith & Co. at Tyrone, died this morning from the effects of a dose of laudanum taken last night. When it was discovered he had taken the laudanum two doctors were promptly summoned and they remained with him and worked ardently all night to save his life, but to no purpose. He was aged about 21 years and we learn was the young man who got into trouble some time ago when a clerk in the Tyrone post office by opening letters. He came from good parentage and had previous to his post office trouble been held in high esteem. The suicide was likely due to remorse brought on by his unlawful practices in the case mentioned.

The Queen of Comedies, "Jane."

"Jane" the funniest comedy presented since the "Private Secretary," visits Bellefonte for the first time at the opera house for an engagement of one night. It has been specially arranged that this organization should travel direct from New York to San Francisco. "Jane" will be impersonated this time by a bright and clever company whom manager Frohman has selected for Jane ever since the comedy was first produced.

To-morrow evening is the time.

—In consequence of the failure of Geo. M. Irvin & Co., discretionary pool dealers in Pittsburg, Bellefonters are out the neat sum of five thousand dollars, or thereabouts, in sums ranging from twenty to one thousand dollars. The loss, however, is being the means of inducing others who have invested with like concerns in New York to withdraw their cash as quickly as possible.

—It is more than likely that Bellefonters will have a chance to see a good foot ball game on Saturday between the Preps, of State College, and the Academy team of this place. A game is now being arranged for, and should it take place it should be largely patronized.

Story Of Curtin.

Mr. Curtin was too useful a man to the Union-causes to be passed over lightly by the rebel conspirators in the north, and a plan was laid to have a confederate troop of raiders abduct him while he was visiting Bedford Springs in August, 1864. A man named Washburn came to him in secret and warned him of the plot, but the governor laughed it off. It so happened that Colonel Thomas A. Scott, the railway magnate, was at Hollidaysburg and had occasion to communicate with the governor by telegraph, but the operator informed him that the wires between Hollidaysburg and Bedford Springs had evidently been cut. This alarmed Scott, who at once ordered up a special train and hastened to Bedford Springs, where he took Governor Curtin and his family aboard and carried them to Harrisburg. The journey was made by night and in the midst of it the headlight on the locomotive was extinguished. Colonel Scott seized on the nearest conductor's lantern himself mounted guard on the cowcatcher so as to make sure that there were no obstructions on the track. Colonel Imboden, of the Confederate army, afterward told Mr. Curtin that if he had stayed in Altoona two hours longer he would have been captured and carried off. —From Kate Field's Washington.

Mill Hall Fire.

A more detailed examination of the ruins at the brick works at Mill Hall reveals the fact that the damage to the machinery is greater than was at first supposed. Nearly all the machines used in the making and pressing of brick, if not entirely ruined are in such bad shape as to seriously interfere with their doing the work expected of them in as perfect a manner as heretofore. The damage to brick ready for the kilns is also greater than at first estimated.

To-morrow the insurance adjusters are expected to arrive and settle the claims. The board of directors of the company will hold a meeting on the 12th inst, at which it will be determined what course to pursue. It is the intention to rebuild the factory, but whether it shall be rebuilt at present is not yet known.

The Queen of Comedies, "Jane."

The funny comedy "Jane" which will be presented at the opera house on next Friday night, is the most successful French farce that has been written in years. Where it has been played, it was voted by the people to be funnier and merrier than the "Private Secretary" which had held the laughing record up to this date. The piece is now being interpreted by one of the best companies that Mr. Gustave Frohman could engage. Will include Mr. Frank Norcross a young comedian so long with Frohman's "Mr. Wilkinson's Widow" Co., Fred Mower, Augustus Balfour, Frank Frayde Jr, Frankie Gordon, Miss Minerya Dorr Pauline Davidson, Bernice Norcross, and Lutie Page Mower.

All But One Identified.

As stated in our columns yesterday C. G. Carr, one of the victims of Tuesday morning's wreck at the Viaduct, proved to be a resident of Sunbury, and a brother from that place came here this morning to claim the body and will take it back home with him this evening for burial. The body of Seitzinger was shipped to Catawissa this morning, and that of the "unknown" will be buried in the Philipsburg cemetery this afternoon. A photograph of the unknown having been taken, and a pretty thorough description of him published, his identity may yet be established. —Friday's Philipsburg *Journal*.

Of Interest to Wheelmen.

The recent decision of the Minnesota supreme court in a case of damages brought by a man whose horse ran away and smashed a buggy by fright from a bicycle, will be of interest to local wheelmen. The decision says: Bicycles are vehicles used very extensively for convenience, recreation, pleasure and business, and the riding of them upon the public highway in the ordinary manner, as is now done, is neither unlawful nor prohibited, and they cannot be banished because they are not ancient vehicles and were not used in the Garden of Eden by Adam and Eve.

Can Be Made Use of.

It is pleasing to note that some persons in this city have at last learned that the leaves that lie piled up in deep ridges along the gutters in many streets make good bedding for cattle and are utilizing them for use during the coming winter. As a covering for plants and such vegetable food as is kept out in the air, half buried in the ground, they are also excellent. In fact the worst use that can be made of the leaves is to let them lie in the gutters.
